

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9630-1; EPA-HQ-ORD-2012-0093]

### Notice of Workshop and Call for Information on Integrated Science Assessment for Oxides of Nitrogen

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; call for information.

**SUMMARY:** The U.S. EPA Office of Research and Development's National Center for Environmental Assessment (NCEA) is preparing an Integrated Science Assessment (ISA) as part of the review of the primary National Ambient Air Quality Standards (NAAQS) for oxides of nitrogen (NO<sub>x</sub>). The scientific review that informs the ISA will include evidence for NO<sub>x</sub> whereas the indicator for NO<sub>x</sub> that has been used for the standard is nitrogen dioxide (NO<sub>2</sub>). Thus, the ISA is referred to as the NO<sub>x</sub> ISA while the standard itself is referred to as the NO<sub>2</sub> NAAQS. This ISA is intended to update the scientific assessment presented in the *Integrated Science Assessment for Oxides of Nitrogen – Health Criteria* (EPA 600/R-08/071), published in July 2008. Interested parties are invited to assist the EPA in developing and refining the scientific information base for the review of the NO<sub>2</sub> NAAQS

by submitting research studies that have been published, accepted for publication, or presented at a public scientific meeting.

The EPA is also announcing that a workshop entitled “*Kickoff Workshop to Inform EPA’s Review of the Primary NO<sub>2</sub> NAAQS*” is being organized by NCEA and the EPA Office of Air and Radiation’s Office of Air Quality Planning and Standards (OAQPS). The workshop will be held February 29 to March 1, 2012, in Research Triangle Park, North Carolina. The workshop will be open to attendance by interested public observers on a first-come, first-served basis up to the limits of available space.

**DATES:** The workshop will be held on February 29 to March 1, 2012. All communications and information submitted in response to the call for information should be received by EPA by March 9, 2012.

**ADDRESSES:** The workshop will be held at U.S. EPA, 109 T.W. Alexander Drive, Research Triangle Park, North Carolina. An EPA contractor, ICF International, is providing logistical support for the workshop. To register, please send an email to: EPA\_NAAQS\_Workshop@icfi.com with “NOx Kickoff Workshop” in the subject line. The pre-registration deadline is February 17, 2012. Please direct questions regarding workshop registration or logistics to Courtney Skuce at (919) 293-1660, or the email address provided above. For specific questions regarding technical aspects of the workshop see the ***For Further Information Contact*** section of this notice.

Information in response to the call for information may be submitted electronically, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions as provided in the *Supplementary Information* section of this notice.

**FOR FURTHER INFORMATION CONTACT:** For details on the period for submission of research information from the public, contact the Office of Research and Development (ORD) Docket; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail:

[ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov). For technical information, contact Tom Luben, Ph.D., NCEA, telephone: (919) 541-5762; facsimile: (919) 541-2985; or e-mail: [luben.tom@epa.gov](mailto:luben.tom@epa.gov) or Scott Jenkins, Ph.D., OAQPS, telephone: (919) 541-1167 or e-mail: [jenkins.scott@epa.gov](mailto:jenkins.scott@epa.gov).

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Information about the Project**

Section 108(a) of the Clean Air Act directs the Administrator to issue “air quality criteria” for certain air pollutants. These air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare, which may be expected from the presence of such pollutant in the ambient air....” Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised air quality criteria.

NO<sub>2</sub> is one of six “criteria” pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA. The ISA, along with additional technical and policy assessments conducted by OAQPS, form the scientific and technical basis for EPA decisions on the adequacy of existing NAAQS and the appropriateness of new or revised standards.

At the start of a NAAQS review, EPA issues an announcement of the review and notes the initiation of the development of the ISA. At that time, EPA also issues a request that the public submit scientific literature that they want to bring to the attention of the Agency for consideration in the review process. The Clean Air Scientific Advisory Committee (CASAC), an independent scientific advisory committee mandated by the Clean Air Act, is charged with independent expert scientific review of EPA's draft ISAs. As the process proceeds, the public will have opportunities to review and comment on draft NO<sub>x</sub> ISAs. These opportunities will also be announced in the *Federal Register*.

For the review of the NO<sub>2</sub> NAAQS being initiated by this notice, the Agency is interested in obtaining additional new information, particularly concerning toxicological studies of effects of controlled exposure to NO<sub>2</sub> on laboratory animals, humans, and in vitro systems, as well as, epidemiologic (observational) studies of health effects associated with ambient exposures of human populations to NO<sub>2</sub>. EPA also seeks recent information in other areas of NO<sub>2</sub> research such as chemistry and physics, sources and emissions, analytical methodology, transport and transformation in the environment, and ambient concentrations. This and other selected literature relevant to a review of the NAAQS for NO<sub>2</sub> will be assessed in the forthcoming NO<sub>x</sub> ISA.

As part of this review of the NO<sub>2</sub> NAAQS, EPA intends to sponsor a workshop on February 29 to March 1, 2012, to highlight significant new and emerging NO<sub>x</sub> research, and to make recommendations to the Agency regarding the design and scope of the review for the primary (health-based) NO<sub>2</sub> standards to ensure that it addresses key policy-relevant issues and considers the new science that is relevant to informing our understanding of these issues. In addition, other opportunities for submission of new peer-reviewed, published (or in-press) papers will be possible as part of public comment on the draft ISAs that will be reviewed by CASAC. We intend that workshop discussions will build upon three prior publications or events (please see [http://www.epa.gov/ttn/naaqs/standards/nox/s\\_nox\\_index.html](http://www.epa.gov/ttn/naaqs/standards/nox/s_nox_index.html) to obtain a copy of these and other related documents): (1) *Primary National Ambient Air Quality Standards for Nitrogen Dioxide; Final Rule (40 CFR Parts 50 and 58, February 9, 2010)*. The preamble to the final rule included detailed discussions of policy-relevant issues central to the last review; (2) *Integrated Science Assessment for Oxides of Nitrogen – Health Criteria* (EPA 600/R-08/071, July 2008); and (3) *Risk and Exposure Assessment to Support the Review of the NO<sub>2</sub> Primary National Ambient Air Quality Standard* (EPA 452/R-08/008a, November 2008).

Based in large part on the input received during this workshop, EPA will develop a draft integrated NO<sub>2</sub> NAAQS review plan that will outline the schedule, process, and approaches for evaluating the relevant scientific information and addressing the key policy-relevant issues to be considered in this review. The CASAC will be asked to conduct a consultation with the Agency on the draft integrated review plan, and the public will have the opportunity to comment on it as well. The final integrated review plan will be used to frame each of the major elements of the NO<sub>2</sub> review under the NAAQS review process: an

integrated science assessment document, a risk/exposure assessment report, and a policy assessment.

## II. How to Submit Technical Comments to the Docket at [www.regulations.gov](http://www.regulations.gov)

Submit your comments, identified by Docket ID No. **EPA-HQ-ORD-2012-0093** by one of the following methods:

- [www.regulations.gov](http://www.regulations.gov): Follow the on-line instructions for submitting comments.
- E-mail: [ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov).
- Fax: 202-566-1753.
- Mail: Office of Research and Development (ORD) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460. The phone number is 202-566-1752.
- Hand Delivery: The ORD Docket is located in the EPA Headquarters Docket Center, Room 3334, EPA West Building, 1301 Constitution Avenue, N.W., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. The telephone number for the Public Reading Room is 202-566-1744. Such deliveries are only accepted during the docket's normal hours of operation, and special

arrangements should be made for deliveries of boxed information. If you provide comments by mail or hand delivery, please submit three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

*Instructions:* Direct your comments to Docket ID No. **EPA-HQ-ORD-2012-0093**.

Please ensure that your comments are submitted within the specified comment period.

Comments received after the closing date will be marked “late,” and may only be considered if time permits. It is EPA's policy to include all comments it receives in the public docket without change and to make the comments available online at [www.regulations.gov](http://www.regulations.gov), including any personal information provided, unless a comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [www.regulations.gov](http://www.regulations.gov) or e-mail. The [www.regulations.gov](http://www.regulations.gov) Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [www.regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For

additional information about EPA's public docket visit the EPA Docket Center homepage at [www.epa.gov/epahome/dockets.htm](http://www.epa.gov/epahome/dockets.htm).

*Docket:* Documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other materials, such as copyrighted material, are publicly available only in hard copy. Publicly available docket materials are available either electronically in [www.regulations.gov](http://www.regulations.gov) or in hard copy at the ORD Docket in the EPA Headquarters Docket Center.

Dated: February 6, 2012

Signed: Rebecca Clark

Acting Director, National Center for  
Environmental Assessment
