Fees for Sanitation Inspections of Cruise Ships

AGENCY: Centers for Disease Control and Prevention (CDC),
Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS), announces fees for vessel sanitation inspections. These inspections are conducted by CDC's Vessel Sanitation Program (VSP). VSP assists the cruise line industry in fulfilling its responsibility for developing and implementing comprehensive sanitation programs to minimize the risk for acute gastroenteritis. Every vessel that has a foreign itinerary and carries 13 or more passengers is subject to twice-yearly inspections and, when necessary, re-inspection.

DATES: These fees are effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

FOR FURTHER INFORMATION CONTACT: CAPT Jaret T. Ames, Chief, Vessel Sanitation Program, National Center for Environmental Health, Centers for Disease Control and Prevention, 4770 Buford Highway N.E., MS-F-59, Atlanta, Georgia 30341-3717, phone: 800-323-2132 or 954-356-6650, e-mail: vsp@cdc.gov.

SUPPLEMENTARY INFORMATION:

Purpose and Background

CDC established VSP in the 1970s as a cooperative activity with the cruise ship industry. VSP assists the cruise ship industry to prevent and control the introduction, transmission, and spread of gastrointestinal illnesses on cruise ships. VSP operates under the authority of the Public Health Service Act (42 U.S.C. Section 264, "Control of Communicable Diseases"). Regulations under 42 CFR Section 71.41 (Foreign Quarantine - Requirements Upon Arrival at U.S. Ports: Sanitary Inspection; General Provisions) states that carriers arriving at U.S. Ports from foreign areas are subject to sanitary inspections to determine whether there exists rodent, insect, or other vermin infestations, contaminated food or water, or other sanitary conditions requiring measures for the prevention of the introduction, transmission, or spread of communicable diseases.

The fee schedule for sanitation inspections of passenger cruise ships inspected under VSP was first published in the *Federal Register* on November 24, 1987 (52 FR 45019). CDC began collecting fees on March 1, 1988. This notice announces fees that are effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

The following formula is used to determine the fees:

Average cost per inspection =

$$\frac{\text{Total cost of VSP}}{\text{Weighted number of annual inspections}}$$

The average cost per inspection is multiplied by size and cost factors to determine the fee for vessels in each size category. The size and cost factors were established in the proposed fee schedule published in the *Federal Register* on July 17, 1987 (52 FR 27060). The fee schedule was most recently published in the *Federal Register* on November 26, 2008 (73 FR 72053). The current size and cost factors are presented in Appendix A.

Fee

The fee schedule (Appendix A) will be effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER] through September 30, 2012.

The fee schedule has not changed since October 1, 2006. If travel expenses continue to increase, the fees may need to be adjusted before September 30, 2012, because travel constitutes a sizable portion of VSP's costs. If a fee adjustment is necessary, a notice will be published in the *Federal Register* 30 days before the effective date.

Applicability

The fees will apply to all passenger cruise vessels for which inspections are conducted as part of CDC's VSP.
