Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501 - 3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for

failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB)) during this comment period to obtain the full three-year-clearance from them. However, we are reporting an adjustment in the reporting/recordkeeping burdens to reflect a decrease in the number of equipments authorized for this type of equipment, which reduces the burden hours and annual costs.

Section 15.201(d) of the Commission rules permit the operation of field disturbance sensors in the low VHF region of the spectrum. In order to monitor non-licensed field disturbance sensors operating in the low VHF television bands, a unique procedure for on-site equipment testing of the systems is required to ensure suitable safeguards for the operation of these devices. Data are retained by the holder of the equipment authorized/issued by the Commission and made available only at the request of the Commission.

Federal Communications Commission.
