

**Billing Code 9110-12-P**

**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**44 CFR Part 67**

**[Docket ID FEMA-2011-0002]**

**[Internal Agency Docket No. FEMA-B-1207]**

**Proposed Flood Elevation Determinations**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule; correction.

**SUMMARY:** On August 3, 2011, FEMA published in the Federal Register a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 76 FR 46701. The table provided here represents the flooding sources, location of referenced elevations, and effective and modified elevations for the City of Cadiz, Kentucky. Specifically, it addresses the flooding sources Little River (backwater effects from Lake Barkley) and Little River Tributary 1 (backwater effects from Lake Barkley).

**DATES:** Comments are to be submitted on or before [INSERT DATE 90 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

**ADDRESSES:** You may submit comments, identified by Docket No. FEMA-B-1207, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064 or (e-mail) [luis.rodriquez3@fema.dhs.gov](mailto:luis.rodriquez3@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064 or (e-mail) [luis.rodriguez3@fema.dhs.gov](mailto:luis.rodriguez3@fema.dhs.gov).

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

### **Correction**

In the proposed rule published at 76 FR 46701, in the August 3, 2011, issue of the Federal Register, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled “City of Cadiz, Kentucky” addressed the flooding sources Little River

(backwater effects from Lake Barkley) and Little River Tributary 1 (backwater effects from Lake Barkley). That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, and/or communities affected for those flooding sources.

In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published for the City of Cadiz, Kentucky.

City of Cadiz, Kentucky					
State	City/town/county	Source of flooding	Location**	Elevation	
				Existing	Modified
Kentucky	City of Cadiz	Little River (backwater effects from Lake Barkley)	Approximately 3.7 miles upstream of the Lake Barkley confluence to approximately 4.5 miles upstream of the Lake Barkley confluence	None	+375
Kentucky	City of Cadiz	Little River Tributary 1 (backwater effects from Lake Barkley)	Approximately 500 feet upstream of the Little River confluence to approximately 1,678 feet upstream of the Little River confluence	None	+375

\*National Geodetic Vertical Datum.  
 +North American Vertical Datum.  
 #Depth in feet above ground.  
 ^Mean Sea Level, rounded to the nearest 0.1 meter.

\*\* BFEs to be changed include the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472.

**ADDRESSES:**

**City of Cadiz:**

Maps are available for inspection at 63 Main Street, Cadiz, KY 42211  
(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: March 1, 2012

---

**Sandra K. Knight,**

Deputy Associate Administrator for Mitigation,

Department of Homeland Security,

Federal Emergency Management Agency.
