SUPPLEMENTARY INFORMATION: On November 16, 2004, NMFS published a Federal Register document (69 FR 67100) proposing regulations to implement an industry fee system for repaying the reduction loan. The final rule was published July 13, 2005 (70 FR 40225) and fee collection began on September 8, 2005. Interested persons should review these for further program details.

The Oregon pink shrimp sub-loan of the Pacific Coast Groundfish Capacity Reduction (Buyback) loan in the amount of \$2,228,844.53 has now been repaid in full. NMFS has received \$3,253,336.34 to repay the principal and interest on this sub-loan since fee collection began September 8, 2005. Landings in the Oregon pink shrimp fishery increased in recent seasons, particularly in the 2011 season, which resulted in this sub-loan being repaid on or about May 17, 2012. As a result, buyback loan fees will no longer be collected in the Oregon pink shrimp fishery.

Based upon the best available data from the Oregon Department of Fish and Wildlife, landings after April 19, 2012, will not be subject to the buyback fee. Any funds submitted to NMFS for landings after this date will be refunded on a pro-rata basis to the fish buyers/processors. The fish buyers/processors

should return excess fees collected to the harvesters, including buyback fees collected but not yet remitted to NMFS.

Dated: May 23, 2012.
