**SUPPLEMENTARY INFORMATION: 1. Background.** Population growth within the Denver, Colorado, metropolitan area continues to create a demand on water providers. Colorado's population is projected to be between 8.6 and 10.3 million in 2050. The Statewide Water Supply Initiative (SWSI), commissioned by the State Legislature, estimates that by 2050, Colorado will need between 600,000 and 1 million acre-feet/year of additional municipal and industrial water. There is also a strong need for additional water supplies for the agricultural community in the South Platte Basin as thousands of acres of previously irrigated land has not been farmed in recent years due to widespread irrigation well curtailments. The purpose and need of the Chatfield Reservoir Storage Reallocation study is to increase availability of water, sustainable over the 50-year period of analysis, in the greater Denver area so that a larger proportion of existing and future (increasing) water needs can be met.

By authority provided under Section 808 of the Water Resources Development Act of 1986 (Pub. L. 99-622), as amended by Section 3042 of the Water Resources Development Act of 2007 (Pub. L. 110-114), the Secretary of the Army, upon request of and in coordination with, the Colorado Department of Natural Resources (CDNR), and

upon the Chief of Engineers' finding of feasibility and economic justification, may reassign a portion of the storage space in the Chatfield Lake project to joint flood control-conservation purposes, including storage for municipal and industrial water supply, agriculture, environmental restoration, and recreation and fishery habitat protection and enhancement. The reallocation was conditioned upon the appropriate non-Federal interests agreeing to repay the cost allocated to such storage in accordance with the provisions of the Water Supply Act of 1958, the Federal Water Project Recreation Act, and such other Federal laws as the Secretary determines appropriate. The payments would go to the United States Treasury. The recreation modifications and environmental mitigation work are additionally authorized by Section 103(c)(2) WRDA 1986, requiring non-Federal payment of 100 percent of the costs of municipal and industrial water supply projects, and this work will be cost shared pursuant to that section.

It is the purpose of this study to identify alternatives, compare those alternatives, and select the best alternative for meeting the needs based on solid planning principles. The FR/EIS allows the public, cooperating agencies, and Corps decision makers to compare the impacts and costs among a range of alternatives.

**3. Public Involvement Meetings.** The Omaha District of the U.S. Army Corps of Engineers invites all interested entities including Tribal governments, Federal agencies, state and local governments, and the general public to comment on the Chatfield Reservoir Storage Reallocation FR/EIS. The public comment period began with the publication of this notice on June 8, 2012 and will continue until August 7, 2012.

All public involvement meetings will use an open house format and will include the opportunity to make public comment. Informational materials about the Chatfield Reservoir Storage Reallocation FR/EIS will be located throughout the room for participant perusal throughout the evening. Corps representatives will be available to meet one-on-one with meeting participants. In addition to the public comments being recorded, written comments will be collected on comment cards, and the opportunity to have formal verbal comments transcribed will be available. All forms of comment will be weighted equally. Input from the public involvement meetings, along with comments received by other means (regular mail or email), will be used to refine the document before a Final FR/EIS is released.

The Corps has scheduled public involvement meetings from 5:30 PM to 8:30 PM at the following locations:

1. Monday, June 25th – The Wildlife Experience, 10035 S. Peoria St. Parker, CO 80134, (720) 488-3300.
2. Tuesday, June 26th - Dakota Ridge High School, 13399 West Coal Mine Avenue, Littleton, CO 80127, (303) 982-1970.
3. Wednesday, June 27th - Valley High School, 1001 Birch St, Gilcrest, CO 80623, (970) 737-2494.
