[Docket No. 110909578-2120-02]

RIN 0648-BB45

Western Pacific Pelagic Fisheries; Modification of American Samoa Large Vessel Prohibited Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This final rule modifies certain boundaries of the large fishing vessel prohibited area around Tutuila, the Manua Islands, and Rose Atoll in American Samoa to align with the boundaries of the Rose Atoll Marine National Monument. This rule simplifies enforcement and administration of the management areas.

DATES: This rule is effective [insert date 30 days after date of publication in the FEDERAL REGISTER].

ADDRESSES: The Western Pacific Fishery Management Council (Council) prepared a regulatory amendment that provides background information on this final rule. The regulatory amendment, identified as NOAA-NMFS-2011-0226, includes an environmental assessment and regulatory impact review, and is

available from [www.regulations.gov](http://www.regulations.gov) or the Council, 1164 Bishop St., Suite 1400, Honolulu, HI 96813, tel 808-522-8220, fax 808-522-8226, [www.wpcouncil.org](http://www.wpcouncil.org).

FOR FURTHER INFORMATION CONTACT: Adam Bailey, Sustainable Fisheries, NMFS PIR, 808-944-2248.

SUPPLEMENTARY INFORMATION: A mix of small troll and longline vessels and larger longline and purse seine vessels target tunas and related fish in the U.S. Exclusive Economic Zone (EEZ) around American Samoa. In 2002, concerns about potential catch competition and gear conflicts between small and large vessels led to the implementation of two large vessel prohibited areas (LVPA), one around Swain's Island and one around Tutuila, the Manua Islands, and Rose Atoll (67 FR 4369, January 30, 2002).

In 2009, Presidential Proclamation 8337 created the Rose Atoll Marine National Monument (74 FR 1577, January 12, 2009). The monument includes Rose Atoll and surrounding waters to a distance approximately 50 nm around the atoll. The Proclamation prohibits commercial fishing in monument waters.

The monument and the LVPA around Tutuila, the Manua Islands, and Rose Atoll overlap, but the boundaries do not align. This rule aligns some of the boundaries to simplify administration and enforcement of the two areas. This rule modifies the LVPA boundaries, as follows:

(a) Move the existing northernmost LVPA boundary southward to align with the northern boundary of the monument;

(b) Move the eastern LVPA boundary eastward to align with the eastern boundary of the monument; and

(c) Move a portion of the southern LVPA boundary southward to align with the southern boundary of the monument.

The western and most of the southern boundaries of the existing LVPA remain unchanged. Fig. 1 shows the revised boundaries of the LVPA.

#### Comments and Responses

On April 20, 2012, NMFS published a proposed rule and request for public comment (77 FR 23654). The comment period for the proposed rule ended on May 11, 2012. NMFS received no public comments.

#### Changes from the Proposed Rule

There are no changes in this final rule.

#### Classification

The Administrator, Pacific Islands Region, NMFS, determined that this action is necessary for the conservation and management of the large vessel pelagic fisheries around American Samoa, and that it is consistent with the Magnuson-Stevens Fishery Conservation and Management Act and other applicable laws.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

The Chief Council for Regulation of the Department of Commerce certified to the Chief Council for Advocacy of the Small Business Administration during the proposed rule stage that this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule and is not repeated here. NMFS received no comments regarding this certification; as a result, a regulatory flexibility analysis was not required and none was prepared.
