Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

**Project: Minority AIDS Initiative (MAI) Rapid HIV Testing Clinical Information Form (OMB No. 0930-0295) - Revision**

This request is for a three-year generic clearance to continue rapid HIV testing data collection among 63 TCE-HIV Grantees and their clients and the additional 11 MAI-HIV Grantees and their clients. The primary purpose of the MAI Rapid HIV Testing Clinical Information Form is to use a standardized data collection instrument to fully capture essential clinical information to enhance preventive services for those who test HIV-negative and refer to quality treatment/medical care those who test HIV-positive.

The aim of the project is to implement and increase rapid HIV testing among racial and ethnic minorities and collect rapid HIV testing data using the MAI Rapid HIV Testing Clinical Information Form. To meet this requirement, all Grantees must offer their clients rapid HIV

preliminary antibody testing during outreach, pretreatment, or program enrollment. In addition, rapid HIV testing may be made available to the sexual and/or injection partners of clients.

Grantees must provide onsite rapid HIV testing in accordance with their respective State and local requirements. If a client requests an off-site rapid HIV test, the Grantee must provide a referral to a rapid HIV testing site certified by the local health department.

Grantees are currently using the MAI Rapid HIV Testing Clinical Information Form in the field to systematically collect information from clients on demographics, previous rapid HIV test results, substance use and sexual risk behaviors, current rapid HIV test results, types of services received, and confirmatory HIV test result. Once a client is offered a rapid HIV test, the Grantee staff completes the MAI Rapid HIV Testing Clinical Information Form with the client present and then enters the data into a secure Web site that allows for real-time data submission.

The estimated annualized burden is summarized below.
