SUPPLEMENTARY INFORMATION:

Title: FERC Form 6-Q, Quarterly Financial Report of Oil Pipeline Companies

*OMB Control No.:*1902-0206

Type of Request: Three-year extension of the FERC Form 6-Q information collection requirements with no changes to the reporting requirements.

Abstract: Under the Interstate Commerce Act (ICA)¹, the Commission is authorized and empowered to make investigations and to collect and record data to the extent FERC may consider to be necessary or useful for the purpose of carrying out the provisions of the ICA. FERC must ensure just and reasonable rates for transportation of crude oil and petroleum products by pipelines in interstate commerce.

The Commission uses the information collected by FERC Form 6-Q to carry out its responsibilities in implementing the statutory provisions of the ICA to include the authority to prescribe rules and regulations concerning accounts, records, and memoranda, as necessary or appropriate. Financial accounting and reporting provides necessary information concerning a company's past performance and its future prospects. Without reliable financial statements prepared in accordance with the Commission's Uniform System of Accounts and related regulations, the Commission would be unable to accurately determine the costs that relate to a particular time period, service, or line of business.

The Commission uses data from the FERC Form 6-Q to assist in:

1. Implementation of its financial audits and programs,
2. continuous review of the financial condition of regulated companies,
3. assessment of energy markets,
4. rate proceedings and economic analyses, and
5. research for use in litigation.

¹ 49 USC Part 1, Section 20, 54 Stat. 916

Financial information reported on the quarterly FERC Form 6-Q provides FERC, as well as customers, investors and others, an important tool to help identify emerging trends and issues affecting jurisdictional entities within the energy industry. It also provides timely disclosures of the impacts that new accounting standards, or changes in existing standards, have on jurisdictional entities, as well as the economic effects of significant transactions, events, and circumstances. The reporting of this information by jurisdictional entities assists the Commission in its analysis of profitability, efficiency, risk, and in its overall monitoring.

Type of Respondents: Oil Pipelines

Estimate of Annual Burden²: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC Form 6-Q: Quarterly Financial Report of Oil Pipeline Companies				
Number of Respondents (A)	Number of Responses Per Respondent (B)	Total Number of Responses (A)x(B)=(C)	Average Burden Hours per Response (D)	Estimated Total Annual Burden (C)x(D)
155	3	465	150	69,750

The total estimated annual cost burden to respondents is \$4,882,500 [69,750 hours * \$70/hour³ = \$4,882,500].

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including

² Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.
