**SUPPLEMENTARY INFORMATION:** Under Section 301 of Public Law 101-445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of Health and Human Services (HHS) and Agriculture (USDA) are directed to issue at least every five years a report titled *Dietary Guidelines for Americans*. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific

and medical knowledge current at the time of publication, and shall be promoted by each federal agency in carrying out any federal food, nutrition, or health program. The *Dietary Guidelines for Americans* was issued voluntarily by HHS and USDA in 1980, 1985, and 1990; the 1995 edition was the first statutorily mandated report, followed by subsequent editions at the appropriate intervals. To assist with satisfying the mandate, a discretionary federal advisory committee is established every five years to provide independent, science-based advice and recommendations. The DGAC consists of a panel of experts who are selected from the public/private sector. Individuals who are selected to serve on the Committee must have current scientific knowledge in the field of human nutrition and chronic disease.

**Appointed Committee Members:** As outlined (stipulated) in the charter, the 2015 DGAC will be composed of not more than 17 members, with the minimum number being 13. Individuals are appointed to serve on the Committee who are jointly agreed upon by the Secretaries of HHS and USDA. The Secretaries of HHS and USDA recently appointed 15 individuals to serve as members of the 2015 DGAC. Information on the DGAC membership will be available at [www.DietaryGuidelines.gov](http://www.DietaryGuidelines.gov).

**Authority:** The 2015 DGAC is authorized under 42 U.S.C. 217a, Section 222 of the Public Health Service Act, as amended.

**Committee's Task:** The work of the DGAC will be solely advisory in nature and time-limited. The Committee will develop recommendations based on the preponderance of current scientific and medical knowledge using a systematic review approach. The DGAC will examine the current *Dietary Guidelines for Americans*, take into consideration new scientific evidence and current resource documents, and develop a

report to the Secretaries of HHS and USDA that outlines its science-based recommendations and rationale which will serve as the basis for developing the eighth edition of the *Dietary Guidelines for Americans*. The Committee will hold approximately five public meetings to review and discuss recommendations. Meeting dates, times, locations, and other relevant information will be announced at least 15 days in advance of each meeting via *Federal Register* notice. As stipulated in the charter, the Committee will be terminated after delivery of its final report to the Secretaries of HHS and USDA or two years from the date the charter was filed, whichever comes first.

**Purpose of the Meeting:** In accordance with FACA and to promote transparency of the process, deliberations of the Committee will occur in a public forum. At this meeting, the Committee will be oriented to the *Dietary Guidelines* revision process and begin its deliberations.

**Meeting Agenda:** The meeting agenda will include (a) review of operations for the Committee members, (b) presentations on the history of the *Dietary Guidelines* and how they are used, (c) presentation on USDA's Nutrition Evidence Library, and (d) plans for future Committee work.

**Meeting Registration:** The meeting is open to the public. The meeting will be accessible by webcast or by attendance in-person.
