SUPPLEMENTARY INFORMATION:

Title: 49 CFR 571.116, Motor Vehicle Brake Fluids

OMB Control Number: 2127 – 0521

Type of Request: New Information Collection

Abstract: Federal Motor Vehicle Safety Standard No. 116, Motor Vehicle Brake Fluids, specifies performance and design requirements for motor vehicle brake fluids and hydraulic system mineral oils. Section 5.2.2 of the standard specifies labeling requirements for manufacturers and packagers of brake fluids as well as packagers of hydraulic system mineral oils. The label on a container of motor vehicle brake fluid or hydraulic system mineral oil is

permanently attached, clearly states the contents of the container, and includes a DOT symbol indicating that the contents of the container meet the requirements of FMVSS No. 116. The label is necessary to help ensure that these fluids are used for their intended purpose only and the containers are properly disposed of when empty. Improper use, storage, or disposal of these fluids could represent a significant safety hazard for the operators of vehicles or equipment in which they are used and for the environment.
