Title: Conduct the Point-of-Care Research Questionnaire, VA Form 10-10069.

OMB Control Number: 2900-NEW (Conduct the Point-of-Care Research Questionnaire)

Type of Review: New collection.

Abstract: The data collected on VA Form 10-10069 will be used as a grant to evaluate patient and provider attitudes and willingness to participate in Point-of-Care Research (POC-R). POC-R is an intermediary approach to bridge the gap between clinical trials and observation studies. The POC-R provides a potential mechanism for improving the breadth and significant of clinical research programs in VA. The objectives of this study are twofold: (1) identify the barriers and facilitators to adoption of a Point-of-care research innovation program by assessing the perceptions and attitudes of patients; and 2) produce guidelines for VHA regarding implementation of POC-R.
