DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2013-0006; OMB Control Number 1014-0001: [134E1700D2

EEEE500000 ET1SF0000.DAQ000]

**Information Collection Activities: Oil and Gas Well-Workover Operations;**

**Proposed Collection; Comment Request**

**ACTION:** 60-day Notice.

**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), Bureau of Safety and Environmental Enforcement (BSEE) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns renewal to the paperwork requirements in the regulations under Subpart F, *Oil and Gas Well-Workover Operations*.

**DATE:** You must submit comments by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

**ADDRESSES:** You may submit comments by either of the following methods listed below.

- Electronically: go to <http://www.regulations.gov>. In the Search box, enter BSEE-2013-0006 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email [nicole.mason@bsee.gov](mailto:nicole.mason@bsee.gov). Mail or hand-carry comments to the Department of the Interior; BSEE; Regulations and Standards Branch; Attention: Nicole Mason; 381 Elden Street, HE3313; Herndon, Virginia 20170-4817. Please reference ICR 1014-0001 in your comment and include your name and return address.

**FOR FURTHER INFORMATION CONTACT:** Nicole Mason, Regulations and Standards Branch at (703) 787-1605 to request additional information about this ICR.

**SUPPLEMENTARY INFORMATION:**

**Title:** 30 CFR Part 250, Subpart F, Oil and Gas Well-Workover Operations.

**OMB Control Number:** 1014-0001.

**Abstract:** The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of the Act related to the mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop mineral resources in a manner that is consistent with the need to make such resources available to meet the Nation’s energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 5(a) of the OCS Lands Act requires the Secretary to prescribe rules and regulations “to provide for the prevention of waste, and conservation of the natural resources of the Outer Continental Shelf, and the protection of correlative rights therein” and to include provisions “for the prompt and efficient exploration and development of a

lease area.” These authorities and responsibilities are among those delegated to BSEE to ensure that operations in the OCS will meet statutory requirements; provide for safety and protection of the environment; and result in diligent exploration, development, and production of OCS leases. This information collection (IC) request addresses the regulations at 30 CFR 250, subpart F, Oil and Gas Well-Workover Operations, and any associated supplementary Notices to Lessees and Operators (NTLs) intended to provide clarification, description, or explanation of these regulations.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA’s provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

Regulations at 30 CFR part 250 implement these statutory requirements. Specifically, BSEE uses the information collected to:

- Review log entries of crew meetings to verify that safety procedures have been properly reviewed.
- Review well-workover procedures relating to hydrogen sulfide (H<sub>2</sub>S) to ensure the safety of the crew in the event of encountering H<sub>2</sub>S.
- Review well-workover diagrams and procedures to ensure the safety of well-workover operations.
- Verify that the crown block safety device is operating and can be expected to function and avoid accidents.
- Verify that the proposed operation of the annular preventer is technically correct and will provide adequate protection for personnel, property, and natural resources.
- Verify the reasons for postponing blowout preventer (BOP) tests, verify the state of readiness of the equipment and ascertain that the equipment meets safety standards and requirements, ensure that BOP tests have been conducted in the manner and frequency to promote personnel safety and protect natural resources. Specific testing information must be recorded to verify that the proper test procedures were followed.
- Assure that the well-workover operations are conducted on well casing that is structurally competent.

The BSEE will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2); 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*; and 30 CFR part 252, *OCS Oil and Gas Information Program*. No items of a sensitive nature are collected. Responses are mandatory.

**Frequency:** On occasion, weekly, monthly, annually, and varies by section.

**Description of Respondents:** Potential respondents include Federal OCS oil, gas, and sulphur lessees and holders of pipeline rights-of-way.

**Estimated Reporting and Recordkeeping Hour Burden:** The currently approved annual reporting burden for this collection is 41,413 hours. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Citation 30 CFR 250, Subpart F	Reporting Requirement	Hour Burden
<b>Requests</b>		
602	Request exceptions prior to moving well-workover equipment.	1
605; 613; 616(a), (f)(4); 617(d)	Request approval to begin subsea well-workover operations; submit Forms BSEE-0124 (include, if required, alternate procedures and equipment; stump test procedures plan) and BSEE-0125; and all supporting documentation.	0
612	Request establishment/amendment/cancellation of field well-workover rules.	5
614(d)	Request approval from the District Manager to displace kill-weight fluids to an underbalanced state; submit detailed written procedures with your APM.	2
617(a)	Request exception to rated working pressure of the BOP equipment; request exception to annular-type BOP testing.	1.5
618(a)(2)	Request approval to use alternative method to inspect a marine riser.	0
600-620	General departure and alternative compliance requests not specifically covered elsewhere in Subpart F regulations.	2
<b>Posting</b>		
614(b)	Post number of stands of drill pipe or workover string and drill collars that may be pulled prior to filling the hole and equivalent well-control fluid volume.	0.25
<b>Submittals/Notifications</b>		
602	Notify BSEE of any rig movement within Gulf of Mexico (Form BSEE-0144).	0
615	Submit a description of your BOP and its components; schematic drawings; independent third party verification and all supporting information (evidence showing appropriate licenses, has expertise/experience necessary to perform required verifications, etc) with your APM.	15
615(e)(2)(i) i)	Allow BSEE access to witness testing, inspections, and information verification. Notify District Manager at least 72 hours prior to shearing	0.25

Citation 30 CFR 250, Subpart F	Reporting Requirement	Hour Burden
	ram tests.	
617(h)(1)(i)	Notify District Manager at least 72 hours prior to stump/initial test on seafloor.	0.25
619; NTL	Notify BSEE if sustained casing pressure is observed on a well.	1
619(b)	Submit results of pressure test, caliper, or otherwise evaluate tubing & wellhead equipment casing (every 30 days during prolonged operations); request written approval.	4
<b>Record/Document</b>		
606	Instruct crew members in safety requirements of operations to be performed; document meetings; make available to BSEE for review.	1
611	Document results of traveling-block safety device in the operations log.	1
617(b)(2)	Record reason for postponing BOP system tests in operations log.	0.5
617(f); 618(a)(1)	Record test pressures during BOP and coiled tubing tests for well-workovers on a pressure chart or with a digital recorder; certify the information is correct.	2
617(g); 618(a)(1);	Record time, date, and results of all pressure tests, actuations, inspections, and crew drills of the BOP system components and risers in the operations log during well-workovers; retain records for 2 years; make available to BSEE.	4
617(h)(1)*	Document all test results of your ROV intervention functions including how you test each ROV function; submit test procedures with your APM for District Manager approval; make available to BSEE upon request.	10
617(h)(2)*	Document all autoshear and deadman test results; submit test procedures with your APM for District Manager approval; make available to BSEE upon request.	0.5
618(a)	Document the procedures used for BOP inspections; record results; maintain records for 2 years; make available to BSEE upon request.	7 days x 12 hrs/ day = 84
618(b)	Document the procedures used for BOP maintenance; record results; maintain records for 2 years; make available to BSEE upon request.	1

**Estimated Reporting and Recordkeeping Non-Hour Cost Burden:** We have identified no non-hour cost burdens associated with this collection of information.

**Public Disclosure Statement:** The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

**Comments:** Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public

and affected agencies concerning each proposed collection of information . . .”.

Agencies must specifically solicit comments to: (a) evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

**Public Comment Procedures:** Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**BSEE Information Collection Clearance Officer:** Cheryl Blundon (703) 787-1607.

Dated: August 2, 2013.

Robert W. Middleton, Deputy Chief  
Office of Offshore Regulatory Programs.
