SUPPLEMENTARY INFORMATION:

I. Background

On November 8, 2013, OSHA published the Improve Tracking of Workplace Injuries and Illnesses proposed rule [See Vol.78 FR 67254-67283] OSHA proposes to amend its recordkeeping regulations to add requirements for the electronic submission of injury and illness information employers are already required to keep under Part 1904. The proposed rule amends 29 CFR 1904.41 to add three new electronic reporting requirements. The purpose of the rulemaking is to improve workplace safety and health through the collection of useful, accessible, establishment-specific injury and illness data to which OSHA currently does not have direct, timely, and systematic access. With the information acquired through the proposed rule, employers, employees, employee representatives, the government, and researchers will be better able to identify and abate workplace hazards. For additional information on the proposed rule and other ways to submit comments, see Vol.78 FR 67254-67283.

II. Public Participation

Recordkeeping requirements promulgated under the Occupational Safety and Health Act of 1970 (OSH Act) are regulations, not standards. Therefore, this rulemaking is governed by the notice and comments requirements in the Administrative Procedure Act (APA) (5 U.S.C. 553) rather than section 6 of the OSH Act (29 U.S.C. 655) and 29 CFR part 1911. Section 6(b)(3) of the OSH Act (29 U.S.C. 655(b)(3)) and 29 CFR 1911.11, both of which state the requirement for OSHA to hold an informal public hearing on proposed rules, only apply to promulgating, modifying or revoking occupational safety and health standards.

Section 553 of the APA, which governs this proposal, does not require a public hearing; instead, it states that the agency must “give interested persons an opportunity to participate in the

rulemaking through submission of written data, views, or arguments with or without opportunity for oral presentation” (5 U.S.C. 553(c)) (emphasis added). To promulgate a proposed regulation, the APA requires the agency to provide the terms of the proposed rule or a description of these terms, specify the time during which the agency will receive comments on the proposal, and give instructions regarding how to participate in the rulemaking (5 U.S.C. 553(b)). The APA does not specify a minimum period for submitting comments. In accordance with the goals of Executive Order 12866, OSHA is providing 90 days for public comment (E.O. 12866 section 6(a)(1)).

Public Meeting: OSHA will hold a public meeting on the proposed rule from 9 a.m. to 4:30 p.m. on Thursday, January 9, 2014 at the U.S. Department of Labor in Washington, DC (see ADDRESSES section). If necessary, the meeting may be extended to subsequent days. The purpose of the public meeting is to allow interested persons to provide oral remarks on the proposed rule, which is a limited rulemaking to amend its recordkeeping regulations to add requirements for the electronic submission of injury and illness information employers are already required to keep under Part 1904. Although OSHA is not required to hold a public meeting on proposed regulations, the Agency believes that the public meeting will help facilitate the development of a clear and complete rulemaking record. Consistent with this purpose, OSHA has the discretion to limit the time of speakers whose presentation goes beyond the scope of the proposed regulation.

Requests for individuals to attend the meeting must be received by Friday, December 13, 2013. The request must provide the following information:

- Name, email address, and telephone number of each individual who will attend the meeting;
- Name of the organization or establishment each attendee represents, if any;

- Occupational title and position of each attendee, if any;
- If each attendee is planning to participate in-person or via teleconference;
- Whether each attendee is planning to speak at the meeting; and
- If planning to speak, the approximate time each attendee wishes to speak, and the topics each attendee wishes to cover at the meeting.

OSHA will review each request to speak and determine whether the information it contains warrants the amount of time the individual requested. To ensure that each individual wishing to speak is allotted time, speakers will be limited to a maximum of 10 minutes each. OSHA may also limit the time allocated to any individual who fails to comply substantially with the procedures for submitting a request to speak.

At OSHA's discretion and as time permits, individuals who did not submit a request to speak may be allowed time, not exceeding five minutes, to make a brief oral statement at the end of the scheduled presentations.

OSHA will provide access to the public meeting via teleconference. Attendees participating via teleconference can listen in, but will be unable to speak during the meeting. The number of lines provided is limited and will be available on a first come, first served basis to those who indicate that they will be participating via teleconference in their requests to attend the meeting. Additional teleconference information, including dial-in number, will be provided in advance of the meeting.

OSHA will post the schedule of appearances for the public meeting, as well as additional information about the meeting, on OSHA's webpage: <http://www.osha.gov>. The meeting will be transcribed. The transcription and all materials submitted during the public meeting will be put in

the public docket of the rulemaking (Docket No. OSHA-2013-0023) at
<http://www.regulations.gov>.
