#### **SUPPLEMENTARY INFORMATION:**

On August 10, 2013 (ADAMS Accession No. ML13226A020), the petitioner requested that the NRC take action with regard to CSMI. The petitioner requested immediate enforcement action by issuing an order to revoke CSMI's License No. 20-35022-01.

As the basis for this request, the petitioner states that the Licensee has committed willful violations involving falsification of information that are of particular concern because the NRC's regulatory program is based on licensees acting with integrity and communicating with candor.

The request is being treated pursuant to section 2.206 of Title 10 of the *Code of Federal Regulations* (10 CFR) of the Commission's regulations. The request has been referred to the Director of the Office of Federal and State Materials and Environmental Management Programs. As provided by 10 CFR 2.206, appropriate action will be taken on this petition within a reasonable time. The petitioner met with the Petition Review Board (PRB) on September 10, 2013, to discuss the petition; the transcript of that meeting is an additional supplement to the petition (ADAMS Accession No. ML13263A388). The results of that discussion were considered in the board's determination regarding the petitioner's request for immediate action and in establishing

the schedule for the review of the petition. By letter dated November 4, 2013, the Director denied petitioner's request for immediate action to revoke CSMI's License No. 20-35022-01.

Dated at Rockville, Maryland, this 4<sup>th</sup> day of November, 2013.

For the Nuclear Regulatory Commission.

Brian E. Holian, Acting Director  
Office of Federal and State Materials  
and Environmental Management Programs
