SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authority for the information collections specified in regulations 29 CFR 1910.1020 and -.1048. The Formaldehyde Standard requires a covered employer to monitor worker exposure, to notify workers of their formaldehyde exposures, to provide medical surveillances, to provide examining physicians with specific information, to ensure workers receive a copy of their medical examination results, to maintain workers' exposure monitoring and medical records for specific periods, and to provide the OSHA, National Institute for Occupational Safety and Health, affected workers, and their authorized representatives access to these records. Employers, workers, physicians, and the Government use these records to ensure exposure to benzene in the workplace does not harm workers. The Occupational Safety and Health Act authorizes this information collection. See 29 U.S.C. 651, 655, and 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not

required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0145.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on December 31, 2013. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on August 23, 2013 (78 FR 52567).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0145. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
