Abstract: EPA contractors will be required to disclose business relationships and corporate affiliations to determine whether EPA's interests are jeopardized by such relationships. Because EPA has the dual responsibility of cleanup and enforcement and because its contractors are often involved in both activities, it is imperative that contractors are free from conflicts of interest so as not to prejudice response and enforcement actions. Contractors will be required to maintain a database of business relationships and report information to EPA on either an annual basis or when each work order is issued.

ICR numbers: EPA ICR No. 1550.10, OMB Control No. 2030-0023.

Respondents/affected entities: Entities potentially affected by this action are businesses or organizations performing contracts for the EPA.

Respondent's obligation to respond: Mandatory to continue performance on the respective contract, in accordance with respective contract clause terms.

Estimated number of respondents: 135 (total).

Frequency: 1,138 hours per response

Total estimated burden: 153,626 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: Estimated total annual costs are \$10,978,201.08. This includes an estimated contractor burden cost of \$9,858,202.20 and an estimated agency burden cost of \$1,119,998.88.

These amounts were calculated using the hours above and the labor rates from the 2009 Bureau of Labor National Mean Statistics and the General Schedule.

Changes in Estimates: The Agency does not anticipate a change in the hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. Further, for the current ICR renewal, EPA estimates no incurred capital/start-up costs as it is not necessary for respondents to acquire any capital goods to provide the requested information.
