It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this

collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Abstract:* As set forth in Section 145(b) of H.J. Res. 117, the Fiscal Year 2013 Continuing Resolution (CR) Congress directed the U.S. Department of Education (ED) to submit a report to Congress on December 31, 2013, regarding the degree to which certain populations of students (students with disabilities, English language learners, rural students, and economically disadvantaged students) are taught by teachers participating in an alternative route to certification program. State educational agencies (SEAs) and local educational agencies (LEAs) have not been required to collect nor report this information. The requested data must be reported from schools to LEAs to SEAs. ED respectfully seeks clearance to collect this information required to answer Congress's directive. It is anticipated that the collection is needed for one year only, hence, SEAs are not likely to alter their data collection and reporting systems to meet this data reporting requirement.
