SUPPLEMENTARY INFORMATION: This process is conducted in accordance with 5 CFR 1320.10. Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques of other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- (1) Type of information collection: Extension of a currently approved collection.
- (2) The title of the form/collection: Supplementary Homicide Report
- (3) The agency form number, if any, and the applicable component of the department sponsoring the collection: Form 1-704; Criminal Justice Information Services Division, Federal Bureau of Investigation, Department of Justice.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: City, county, state, tribal, and federal law enforcement agencies. Under Title 28, U.S. Code, Section 534, this information collection requests homicide data from city, county, state, tribal, and federal law enforcement agencies in order for the FBI UCR Program to serve as the national clearinghouse for the collection and dissemination of homicide data and to publish these statistics in Crime in the United States.
- (5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: There are a potential of 18,233 law enforcement agency respondents; 11,586 for the Summary Reporting System (SRS) and 6,647 for the National Incident-Based Reporting System (NIBRS). NIBRS burden hours are collected on the NIBRS Information Collection Request. Calculated estimates for an SRS respondent to respond indicate 9 minutes per month. The total annual burden hour per respondent is 1 hour and 48 minutes.
Total Annual Hour Burden:
 $9 \text{ minutes} \times 12 \text{ months} = 108/60 = 1 \text{ hour and } 48 \text{ minutes}$

(6) An estimate of the total public burden (in hours) associated with this collection:

There are approximately 20,855 hours, annual burden, associated with this information collection.

11,586 respondents x 12 responses/year = 139,032 total annual responses

$$\frac{139,032 \times 9 \text{ minutes}}{60 \text{ minutes (1 hour)}} = 20,855 \text{ total annual hour burden}$$

(This burden estimate does not include the 6,696 National Incident-Based Reporting System (NIBRS) agencies; the NIBRS burden hours are captured in the NIBRS Information Collection Request.)
