request, senior management representatives of CP and BNSF met individually with each Board Member, and the Board requested certain additional data from CP and BNSF.

The Board's Office of Public Assistance, Governmental Affairs and Compliance (OPAGAC) has also been working with CP and BNSF to address and correct service issues as they arise. Representatives of OPAGAC have held numerous meetings and conference calls with affected parties to better understand the specific problems shippers are facing, and to help facilitate a quick resolution whenever possible. Board staff has facilitated meetings in Fargo, North Dakota, on service issues with shippers from North Dakota, South Dakota, Minnesota, and Montana. We anticipate that, following this public hearing, additional field meetings in other affected areas will be held. The Board's hearing is not intended to replace the informal and confidential process facilitated by OPAGAC, and shippers and railroads are encouraged to continue communicating through that office.

The Board will hold a public hearing beginning at 9:30 a.m., on April 10, 2014,<sup>2</sup> at its offices in Washington, DC, to provide an opportunity for interested persons to report on the status of rail service and to discuss ways to remedy the current service problems.<sup>3</sup> The Board will direct executive-level officials from CP and BNSF to appear

<sup>2</sup> Our regulations at 49 CFR 1012.3(c) provide generally for at least seven days' advance notice of a public meeting. This decision is being served more than seven days in advance of the April 10 hearing. Although Federal Register publication will not be effected until April 7, 2014, we find that the service issues discussed above require that this hearing be held as soon as possible. See 49 CFR 1012.3(e).

<sup>3</sup> The Board and other agencies have held similar hearings in the past to address transportation service issues. See, e.g., Rail Transp. of Res. Critical to the Nation's Energy Supply, EP 672 (STB served June 6, 2007); Notice of Discussions, AD06-8-000

at the hearing to discuss their ongoing and future efforts to improve service on their railroads and to provide an estimated timeline for a return to normal service levels. The Board particularly encourages impacted shippers and/or shipper organizations to appear at the hearing to discuss their service concerns and to comment on the railroads' plans.<sup>4</sup> Also, given the service disruptions that have hindered nearly all carriers that connect through the Chicago area, other Class I railroads are also invited to file notices to appear at the hearing.

This decision will not significantly affect either the quality of the human environment or the conservation of energy resources.

It is ordered:

1. A public hearing will be held on April 10, 2014, at 9:30 a.m., in the Board's Hearing Room, at 395 E Street, S.W., Washington, DC, as described above.
2. CP and BNSF are directed to appear at the hearing.
3. By April 7, 2014, any person wishing to speak at the hearing shall file with the Board a notice of intent to participate (identifying the party and the proposed speaker). The notices of intent to participate are not required to be served on the parties of record; they will be posted to the Board's website when they are filed.

<sup>4</sup> On March 24, 2014, the Western Coal Traffic League (WCTL) filed a Petition to Institute a Proceeding to Address the Adequacy of Coal Transportation Service Originating in the Western United States, Docket No. EP 723. The concerns raised in WCTL's petition will be addressed as part of this docket.
