**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is for an extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et. seq.*), NOAA is responsible for management of the Nation's marine fisheries. In addition, NOAA must comply with the United States' (U.S.) obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et. seq.*). A Certificate of Eligibility (COE) for Billfishes is required under 50 CFR part 635 to accompany all billfish, except for a billfish landed in a Pacific state and remaining in the state of landing. This documentation certifies that the accompanying billfish was not harvested from the applicable Atlantic Ocean management unit (described on the NOAA sample certificate), and identifies the vessel landing the billfish, the vessel's homeport, the port of offloading, and the date of offloading. The certificate must accompany the billfish to any dealer or processor who subsequently receives or possesses the billfish. A standard certificate format is not currently required to document the necessary information, provided it contains all of the information required. The extension of this collection is necessary to implement the Consolidated Highly Migratory Species Fishery Management Plan, which contains an objective to reserve Atlantic billfish for the recreational fishery.

On October 5, 2012, the President signed Public Law 112-183 entitled the “Billfish Conservation Act of 2012,” which prohibits the sale of billfish (or products containing billfish), or the custody, control, or possession of billfish (or products containing billfish) for purposes of sale. The only exemptions to this prohibition include billfish landed by U.S. fishing vessels in Hawaii and Pacific Insular Areas, and billfish landed by foreign fishing vessels in the Pacific Insular Areas when the foreign-caught billfish are exported to non-U.S. markets or retained within Hawaii and the Pacific Insular Areas for local consumption. NOAA is currently developing implementing regulations for the Billfish Conservation Act. If necessary, upon publication of the proposed rule, the information collection associated with the Billfish Certificate of Eligibility (0648-0216) may be revised accordingly.

## **II. Method of Collection**

A paper document is required to be completed by respondents. The document must be signed and dated by each dealer or processor who subsequently receives or possesses the billfish.
