SUMMARY: On March 20, 2014, FEMA published in the Federal Register a final flood hazard determination notice that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 79 FR 15598. The table provided here represents the final flood hazard determinations and communities affected for Poweshiek County, Iowa, and Incorporated Areas, and Douglas County, Nebraska, and Incorporated Areas.

Flood hazard determinations, which may include additions or modifications of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or regulatory floodways on the Flood Insurance Rate Maps (FIRMs) and where applicable, in the supporting Flood Insurance Study (FIS) reports have been made final for the communities listed in the table below.

The FIRM and FIS report are the basis of the floodplain management measures that a community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the Federal Emergency Management Agency's (FEMA's) National Flood Insurance Program (NFIP). In

addition, the FIRM and FIS report are used by insurance agents and others to calculate appropriate flood insurance premium rates for buildings and the contents of those buildings.

DATES: The effective date is May 19, 2014, which has been established for the FIRM, and, where applicable, the supporting FIS report, showing the new or modified flood hazard information for each community.

ADDRESSES: The FIRM and, if applicable, the FIS report containing the final flood hazard information for each community is available for inspection at the respective Community Map Repository address listed in the table below and will be available online through the FEMA Map Service Center at www.msc.fema.gov by the effective date indicated above.

Correction

In the final flood hazard determination notice published at 79 FR 15598 in the March 20, 2014, issue of the Federal Register, FEMA published tables titled “Poweshiek County, Iowa, and Incorporated Areas” and “Douglas County, Nebraska, and Incorporated Areas”. These tables contained inaccurate information as to the communities affected by the final flood hazard determinations for communities in Poweshiek County, Iowa, as well as Douglas County, Nebraska. Additionally, inaccurate community map repository address was published for the City of Montezuma, Iowa featured in the “Poweshiek County, Iowa, and Incorporated Areas” table. In this document, FEMA is publishing revised tables containing the accurate information. The information provided in the tables below should be used in lieu of that previously published.
