SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Rural Health Information Technology (HIT) Workforce Program Performance Measures

OMB No. 0915-xxxx – New

Abstract: The purpose of the Rural HIT Workforce Program is to support formal rural health networks that focus on activities relating to the recruitment, education, training, and retention of HIT specialists. This program will also provide support to rural health networks that can leverage and enhance existing HIT training materials to develop formal training programs, which will provide instructional opportunities to current health care staff, local displaced workers, rural residents, veterans, and other potential students. These formal training programs will result in the development of a cadre of HIT workers who can help rural hospitals and clinics implement and maintain systems such as electronic health records (EHR), telehealth, home monitoring, and mobile health technology; and meet EHR meaningful use standards.

Need and Proposed Use of the Information: For this program, performance measures were drafted to provide data useful to the program and to enable HRSA to provide aggregate program data required by Congress under the Government Performance and Results Act (GPRA) of 1993 (Pub. L. 103-62). These measures cover the principal topic areas of interest to the Office of

Rural Health Policy, including: (a) Service area; (b) demographics; (c) network; (d) sustainability; (e) access to education; (f) education and training; and (g) workforce recruitment and retention. Several measures will be used for this program. These measures will speak to the Office of Rural Health Policy's progress toward meeting the goals set.

Summary of Prior Comments and Agency Response:

A 60-day Federal Register notice was published in the Federal Register on February 11, 2014 (see, 79 FR 8197). There were no comments.

Likely Respondents: Rural Health Information Technology Workforce Program award recipients.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Total Estimated Annualized Burden - Hours
