DEPARTMENT OF ENERGY  
FEDERAL ENERGY REGULATORY COMMISSION

Carolina Gas Transmission Corporation

Docket No. CP14-97-000

NOTICE OF AVAILABILITY OF THE  
ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED  
EDGEMOOR COMPRESSOR STATION PROJECT

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Edgemoor Compressor Station Project (Project) proposed by Carolina Gas Transmission Corporation (Carolina Gas) in the above-referenced docket. Carolina Gas states that the Project would provide about 45,000 dekatherms of natural gas per day to two local distribution customers from Transcontinental Pipe Line Corporation's system.

The EA assesses the potential environmental effects of construction and operation of the Edgemoor Compressor Station Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Edgemoor Compressor Station Project consists of the following facilities all in Chester County, South Carolina:

- construction of one new compressor station consisting of four natural gas fired compressor units totaling 9,500 horsepower;
- construction of the Cone Mills Lateral Extension which consists of about 1,300 feet of 8-inch-diameter pipeline; and
- construction and modification of various ancillary facilities.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the Project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at:
