#### Summary

1. On November 19, 2014, the Satellite Industry Association (SIA) filed a motion to extend the comment deadline in the above-captioned proceeding from December 16, 2014 until January 15, 2015. SIA also requested that the deadline for filing reply comments be extended from January 15, 2015 to February 17, 2015. SIA asserts that analyzing bands for spectrum sharing with widely-deployed mobile wireless services requires extensive analysis and review and notes that the Commission is seeking comment on multiple bands in which satellite operations are authorized. According to SIA, each of these bands is unique and requires an analysis of current and future satellite operations. James E. Whedbee supports the SIA Motion.

2. It is the general policy of the Commission that extensions of time shall not be routinely granted. Under these circumstances, however, we agree that an extension of time to file comments and reply comments is warranted to ensure that the Commission obtains a complete and thorough record in

response to the NOI. The NOI is the first step in a process to examine the use of new, innovative technologies that could enable the use of frequencies above 24 GHz for mobile services. The NOI seeks comment on a wide variety of novel technical, policy and legal issues related to the possible use of bands above 24 GHz for mobile services. We conclude that a short extension of time is warranted to enable interested parties sufficient opportunity to review and respond to the complex issues raised by the NOI, to ultimately help the Commission “discern what frequency bands above 24 GHz would be most suitable for mobile services, and to begin developing a record on mobile service rules and a licensing framework for mobile services in those bands.”

3       Accordingly, pursuant to section 4(i) of the Communications Act of 1934, as amended, and § 1.46 of the Commission's rules, we extend the deadline for filing comments until January 15, 2015. We also extend the deadline for filing reply comments until February 17, 2015.
