SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document which a state revises as necessary to address its unique air pollution problems. Therefore, the EPA, from time to time, must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), the EPA revised the procedures for incorporating by reference Federally-approved SIPs, as a result of consultations between the EPA and the Office of the Federal Register (OFR). The description of the revised SIP document, IBR procedures and “Identification of plan” format are discussed in further detail in the May 22, 1997, **Federal Register** document. On January 25, 2005 (70 FR 9450), the EPA published a **Federal Register** document beginning the new IBR procedure for Idaho. On December 28, 2012 (77 FR 76417), the EPA published an update to the IBR material for Idaho.

Since the publication of the last IBR update, the EPA approved into the Idaho SIP

the following regulatory changes:¹

A. Added Regulations

1. IDAPA 58.01.01 (Rules for the Control of Air pollution in Idaho): section 624.
2. City and County Ordinances: City of Sandpoint Chapter 8 Air Quality (4-8-1 through 4-8-14), City of Clifton Ordinance No. 120, City of Dayton Ordinance #287, Franklin City Ordinance No. 2012-9-12, Franklin County Ordinance No. 2012-6-25, City of Oxford Memorandum of Understanding, City of Preston Ordinance No. 2012-1, City of Weston Ordinance No. 2012-01.
3. EPA-Approved Idaho Source-Specific Requirements: The Amalgamated Sugar Company LLC—Nampa Factory, Nampa, Idaho (Permit No. T2-2009.0105, date issued 12/23/2011).

B. Revised Regulations

IDAPA 58.01.01 (Rules for the Control of Air pollution in Idaho): sections 006, 107, 220, 222, 617, 618, 620, 622 and 623.

C. Removed Regulations

1. City and County Ordinances: City of Sandpoint Ordinance No. 965 (2/21/1995 City adoption date).
2. EPA-Approved Idaho Source-Specific Requirements: Louisiana Pacific Corporation, Sandpoint, Idaho (State effective date 10/31/2001), The Amalgamated Sugar Company LLC—Nampa Factory, Nampa, Idaho (Permit No. T2-2009.0105, date issued 9/7/2010).

¹See 78 FR 16790 (March 19, 2013), 78 FR 20001 (April 3, 2013), 79 FR 11711 (March 3, 2014), 79 FR 16201 (March 25, 2014), and 79 FR 23273 (April 28, 2014).

II. EPA Action

In this action, the EPA is announcing the update to the IBR material as of January 15, 2015. The EPA is also correcting typographical errors, including omission and capitalization errors in subsection 52.670(c), table entries 006, 124, and 220. The EPA is also reformatting dates (i.e., month, day and year) and correcting punctuation to display a consistent format throughout the tables in 52.670(c) and (d).

The EPA has determined that today's rule falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today's rule simply codifies provisions which are already in effect as a matter of law in Federal and approved State programs. Under section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest." Public comment is "unnecessary" and "contrary to the public interest" since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations and incorrect table entries.

III. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the

CAA. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and
- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

The EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA

rulemaking actions for each individual component of the Idaho SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, the EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” update action for Idaho.
