## **SUPPLEMENTARY INFORMATION:**

### **I. Abstract**

The Annual Survey of Foreign Direct Investment in the United States (BE-15) obtains sample data on the financial structure and operations of foreign-owned U.S. business enterprises. The data are needed to provide reliable, useful, and timely measures of foreign direct investment in the United States to assess its impact on the U.S. economy. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-12 benchmark survey, which is conducted every five years. The data collected include balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity. In addition, several data items are collected by state, including employment and property, plant, and equipment.

No changes to the survey forms or reporting requirements are proposed.

### **II. Method of Collection**

BEA contacts potential respondents by mail in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31 (or by June 30 for respondents that file using BEA's eFile system). Reports are required from each U.S. business enterprise in which a foreign person has at least 10 percent of the voting stock in an incorporated business enterprise, or an equivalent interest in an unincorporated business enterprise, and that meets the additional conditions detailed in the BE-15 forms and instructions.

Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers electronic filing through its eFile system for use in reporting on the BE-15 annual survey forms. In addition, BEA posts all its survey forms and reporting instructions on its web site ([www.bea.gov/fdi](http://www.bea.gov/fdi)). These may be downloaded, completed, printed, and submitted via fax or mail.

Potential respondents of the BE-15 are selected from those U.S. business enterprises that were required to report on the 2012 BE-12, Benchmark Survey of Foreign Direct Investment in the United States, along with those U.S. business enterprises that subsequently entered the direct investment universe. The BE-15 is a sample survey, as described; universe estimates are developed from the reported sample data.
