Project No. 2492-013- Maine

NOTICE OF AVAILABILITY OF DRAFT ENVIRONMENTAL ASSESSMENT

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Vanceboro Dam Storage Project, located on the East Branch of the St. Croix River Washington County, Maine, and has prepared a draft Environmental Assessment (EA) for the project. The project does not occupy any federal land.

The draft EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the draft EA is on file with the Commission and is available for public inspection. The draft EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
