SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

The FY 2002 Commerce, Justice, State Appropriations Act directed the Secretary of Commerce to establish a Coastal and Estuarine Land Conservation Program (CELCP) to protect important coastal and estuarine areas that have significant conservation, recreation, ecological, historical, or aesthetic values, or that are threatened by conversion, and to issue guidelines for this program delineating the criteria for grant awards. The guidelines establish procedures for eligible applicants who choose to participate in the program to use when developing state conservation plans, proposing or soliciting projects under this program, applying for funds, and carrying out projects under this program in a manner that is consistent with the purposes of the program. Guidelines for the CELCP can be found on NOAA's Web site at:

<http://www.coast.noaa.gov/czm/landconservation/> or may be obtained upon request

via the contact information listed above. The CELCP was reauthorized in under Public Law 111-111, the Omnibus Public Lands Management Act, as a component of the Coastal Zone Management Act. NOAA also has, or is given, additional authority under the Coastal Zone Management Act, annual appropriations or other authorities, to issue funds to coastal states, localities or other recipients for planning, conservation, acquisition, protection, restoration, or construction projects. The required information enables NOAA to implement the CELCP, under its current or future authorization, and facilitate the review of similar projects under different, but

related, authorities.

II. Method of Collection

Electronic formats are the preferred method for submitting CELCP plans, project applications, performance reports and other required materials. However, respondents may submit materials in electronic or paper formats. Project applications are normally submitted electronically via Grants.gov, but may be submitted by mail in paper form if electronic submittal is not a viable option. Methods of submittal for plans, performance reports or other required materials may include electronic submittal via e-mail or NOAA Grants Online, mail and facsimile transmission of paper forms, or submittal of electronic files on compact disc.
