[CMS-6057-N2]

Medicare Program; Extension of Medicare Prior Authorization for Power Mobility Devices (PMDs) Demonstration

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

SUMMARY: This notice announces an extension of the Medicare Prior Authorization for Power Mobility Devices (PMDs) demonstration.

DATES: This demonstration will now end on August 31, 2018.

FOR FURTHER INFORMATION CONTACT:

Doris M. Jackson, (410) 786-4459.

Questions regarding the Medicare Prior Authorization for Power Mobility Device Demonstration should be sent to pademo@cms.hhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Section 402(a)(1)(J) of the Social Security Amendments of 1967 (42 U.S.C. 1395b-1(a)(1)(J)), authorizes the Secretary to conduct demonstrations designed to develop or demonstrate improved methods for the investigation and prosecution of fraud in the provision of care or services provided under the Medicare program.

On September 1, 2012, we implemented the Medicare Prior Authorization for Power

Mobility Devices (PMDs) Demonstration that would operate for a period of 3 years (September 1, 2012 through August 31, 2015). The demonstration was initially implemented in California, Florida, Illinois, Michigan, New York, North Carolina, and Texas. These states were selected for the demonstration based upon their history of having high levels of improper payments and incidents of fraud related to PMDs. On October 1, 2014, we expanded the demonstration to 12 additional states (Pennsylvania, Ohio, Louisiana, Missouri, Washington, New Jersey, Maryland, Indiana, Kentucky, Georgia, Tennessee, and Arizona) that have high expenditures and improper payments for PMDs based on 2012 billing data.

The objective of the demonstration is to develop improved methods for the investigation and prosecution of fraud in order to protect the Medicare Trust Funds from fraudulent actions and any resulting improper payments. The demonstration's extension will continue to provide the agency with valuable data through which the agency, working with its partners, can develop new avenues for combating the submission of fraudulent claims to the Medicare program for PMDs and improving methods for the investigation and prosecution of PMD fraud. We will continue to share demonstration data within the agency, with our contractors, with state Medicaid agencies, and with law enforcement partners for further analysis and investigation. We believe that data evidencing changes in physician ordering and supplier billing practices that coincide with this demonstration could provide investigators and law enforcement with important information for determining how and where to focus their investigations concerning fraud in the provision of PMDs. For instance, results from this demonstration could potentially indicate collaboration between ordering physicians and suppliers in submitting fraudulent claims for PMDs. This data could assist investigators and law enforcement in targeting their investigations in this area. Additionally, changes in billing practices that result from this demonstration could

provide specific leads for investigators and law enforcement personnel. For instance, where a supplier that frequently submitted claims prior to the demonstration stops submitting claims during the demonstration, law enforcement may determine it prudent to investigate that supplier.

Our data analysis will include the following:

- Suppliers who no longer bill or have a significant decrease in billing during the demonstration.

- Physicians/treating practitioners with a high volume of submissions.

- Codes that show a dramatic increase in use.

Based on preliminary data collected, spending per month on PMDs in the seven original demonstration states decreased after September 2012, indicating that physicians ordering and supplier billing practices have changed as a result of the demonstration. In addition, based on the preliminary data, spending per month on PMDs decreased in the non-demonstration states.

National suppliers have adjusted their billing practices nationwide and appear to have increased compliance with our policies in all locations, not just their offices in the demonstration states.

II. Provisions of the Notice

This notice announces the extension of the Medicare PMDs demonstration for an additional 3 years, until August 31, 2018. Extending the demonstration allows us to continue developing improved methods to investigate and prosecute fraud in order to protect the Medicare Trust Funds from fraudulent actions and any resulting improper payments. This continuation will provide the agency with additional information through which the agency can develop new avenues for combating the submission of fraudulent claims to the Medicare program for PMDs and improving methods for the investigation and prosecution of PMD fraud. We will continue to share demonstration data within the agency, with our contractors, with state Medicaid agencies,

and with law enforcement partners for further analysis and investigation.

This notice will serve as notification of the extended demonstration. In addition, we will publicize the extended demonstration through postings to our website and tweets.

CMS or its agents will continue to conduct outreach and education including webinars, state meetings, and other educational sessions as appropriate. Updated information will be posted to the CMS website (<http://go.cms.gov/PADemo>). We will also continue to work to limit the impact on Medicare beneficiaries by educating the Medicare beneficiaries about their protections.

We will continue to follow the policies and procedures that are currently in place for the demonstration. In accordance with current demonstration policy, a request for prior authorization and all relevant documentation to support the medical necessity along with the written order for the covered item must be submitted when one of the following Healthcare Common Procedures Coding System (HCPCS) codes for a PMD is ordered:

- Group 1 Power Operated Vehicles (K0800 through K0802 and K0812).
- All standard power wheelchairs (K0813 through K0829).
- All Group 2 complex rehabilitative power wheelchairs (K0835 through K0843).
- All Group 3 complex rehabilitative power wheelchairs without power options (K0848 through K0855).
- Pediatric power wheelchairs (K0890 and K0891).
- Miscellaneous power wheelchairs (K0898).

Under this demonstration, a physician, treating practitioner, or supplier may submit the prior authorization request and all relevant documentation to support Medicare coverage of the PMD item along with the written order for the covered item to their Durable Medical Equipment

(DME) Medicare Administrative Contractor (MAC). The physician, treating practitioner, or supplier who submits the request is referred to as the "submitter."

In order to be affirmed, the request for prior authorization must meet all applicable rules, policies, and National Coverage Determination (NCD)/Local Coverage Determination (LCD) requirements for PMD claims. The LCD documentation requirement mandates that the physician or treating practitioner shall complete the seven element order, face-to-face encounter, and any other clinical documentation that is necessary to determine medical necessity regardless of which entity is functioning as the submitter. The supplier must also complete the detailed product description (DPD) regardless of which entity is functioning as the submitter.

After receipt of all relevant documentation, CMS or its agents will make every effort to conduct a complex medical review and postmark the notification of their decision with the prior authorization number within 10 business days. Notification is provided to the physician/treating practitioner, supplier, and the Medicare beneficiary for the initial submission. If a subsequent prior authorization request is submitted after a non-affirmative decision on a prior authorization request, CMS or its agents will make every effort to conduct a review and postmark the notification of decision with the prior authorization number within 20 business days.

If the prior authorization request is not affirmed, and the claim is subsequently submitted by the supplier, the claim will be denied. Medicare beneficiaries may use existing appeal rights to contest claim denials. Suppliers must issue an Advance Beneficiary Notice of Noncoverage (ABN) to the beneficiary, per CMS policy, prior to delivery of the item for the beneficiary to be held financially liable when a Medicare payment denial is expected for a PMD.

Submitters may also request expedited reviews in emergency situations where a practitioner indicates clearly, with supporting rationale, that the standard (routine) timeframe for

a prior authorization decision (10 days) could seriously jeopardize the beneficiary's life or health. The expedited request must be accompanied by the required supporting documentation for this request to be considered complete, thus commencing the 48-hour review. Inappropriate expedited requests may be downgraded to standard requests. After conducting an expedited review, CMS or its agents will communicate a decision for the prior authorization request to the submitter within 48-hours of the complete submission.

The following explains the various prior authorization scenarios:

- Scenario 1: A submitter sends a prior authorization request to the DME MAC with appropriate documentation, and all relevant Medicare coverage and documentation requirements are met for the PMD. The DME MAC then sends an affirmative prior authorization decision to the physician or treating practitioner, supplier, and Medicare beneficiary. The supplier submits the claim to the DME MAC, and the claim is linked to the prior authorization via the claims processing system. Provided all requirements in the applicable NCD/LCD are met, the claim is paid.

- Scenario 2: A submitter sends a prior authorization request, but all relevant Medicare coverage and documentation requirements are not met for the PMD. The DME MAC sends a non-affirmative prior authorization decision to the physician or treating practitioner, supplier, and Medicare beneficiary advising them that Medicare will not pay for the item. If the supplier delivers the PMD and submits a claim with a non-affirmative prior authorization decision, the DME MAC would deny the claim. The supplier or the Medicare beneficiary would then have the Medicare denial for secondary insurance purposes and would have full appeal rights.

Existing liability provisions with respect to delivery of a valid ABN apply.

- Scenario 3: A submitter sends a prior authorization request where documentation is

incomplete. The DME MAC sends back the prior authorization request to the submitter with an explanation about what information is missing and notifies the physician or treating practitioner, supplier, and Medicare beneficiary. The submitter may resubmit the prior authorization request.

- Scenario 4: An applicable PMD claim is submitted without a prior authorization decision or the DME supplier fails to submit a prior authorization request, but nonetheless delivers the item to the Medicare beneficiary and submits the claim to the DME MAC for payment. The claim will be stopped and documentation will be requested to conduct medical review. The PMD claim is reviewed under normal medical review processing timeframes, and if approved, a 25-percent payment reduction would apply.

++ If the claim is determined to be not medically necessary, or insufficiently documented, the claim will be denied. The supplier or Medicare beneficiary can appeal the claim denial. If the claim, after review, is deemed not payable, then all current Medicare beneficiary/supplier liability policies and procedures and appeal rights remain in effect.

++ If the claim is determined to be payable, it will be paid. However, a 25-percent reduction in the Medicare payment will be applied for failure to receive a prior authorization decision before the submission of a claim. This payment reduction will not be applied to competitive bidding program contract suppliers submitting claims for Medicare beneficiaries who maintain a permanent residence in a competitive bidding area according to the Common Working File (CWF). These contract suppliers will continue to receive the applicable single payment amount as determined in their contract. The 25-percent payment reduction is non-transferrable to the Medicare beneficiary for claims that are deemed payable and is not subject to appeal. In the case of capped rental items, the payment reduction will be applied to all claims in the series. After a claim is submitted and processed, appeal rights are available if

necessary.

If the prior authorization request is not affirmed, and the claim is submitted by the supplier, the claim will be denied. Medicare beneficiaries may use existing appeal rights to contest claim denials. Suppliers must issue an ABN to the beneficiary, per CMS policy, prior to delivery of the item in order for the beneficiary to be held financially liable when a Medicare payment denial is expected for a PMD.

Additional information is available on the CMS website (<http://go.cms.gov/PADemo>).

III. Collection of Information Requirements

This notice announces the extension of the Medicare PMDs Demonstration and does not impose any new information collection burden under the Paperwork Reduction Act of 1995. However, there is an information collection burden associated with the demonstration that is currently approved under OMB control number 0938-1169 which expires January 31, 2018.

IV. Regulatory Impact Statement

This document announces an extension of the Medicare PMDs Demonstration. Therefore, there are no regulatory impact implications associated with this notice.

Dated: July 1, 2015.

Andrew M. Slavitt
