Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

EPA's regional offices use the information collected to ensure that public health continues to be protected from the hazards of radionuclides by compliance with health based standards. This information is required for those facilities meeting the definition of each Subpart. EPA's compliance monitoring activities vary widely. EPA could issue a letter requesting information about compliance or could conduct a full-scale investigation, including on site inspections. The information required to be submitted is not confidential in nature.

*Respondent's obligation to respond:* Mandatory

*Estimated number of respondents:* 20 (total).

*Frequency of response:* Initially (Once), Annually, Random (Occasionally)

*Total estimated burden:* 2,872 hours (per year). Burden is defined at 5 CFR 1320.03(b)

*Total estimated cost:* \$500,572, which includes \$283,460 in annualized capital and O&M costs.

*Changes in Estimates:* The final ICR submitted to OMB will contain revised burden estimates that reflect any changes to the collection over the past three years and any public comments received.
