Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2015-0268]

Agency Information Collection Activities; Revision of a Currently-Approved Information Collection Request: Motor Carrier Identification Report

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for information.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for review and approval and invites public comment. The FMCSA requests approval to revise an ICR entitled, “Motor Carrier Identification Report,” which is used to identify FMCSA regulated entities, help prioritize the agency’s activities, aid in assessing the safety outcomes of those activities, and for statistical purposes. This ICR is being revised due to a Final Rule titled, “Unified Registration System,” (78 FR 52608) dated August 23, 2013 which will require regulated entities to file for registration via a new online Form MCSA-1 and eliminate the Forms MCS-150B and MCS-150C contained in the ICR. The Form MCS-150 will be retained for use by the small number of Mexico-domiciled motor carriers that seek authority to operate beyond the United States municipalities on the United States-Mexico border and their commercial zones because they are not included within the scope of the Unified Registration Final Rule.

SUPPLEMENTARY INFORMATION:

Background: Title 49, United States Code Section 504(b)(2) provides the Secretary of Transportation (Secretary) with authority to require carriers, lessors, associations, or classes of these entities to file annual, periodic, and special reports containing answers to questions asked by the Secretary. The Secretary may also prescribe the form of records required to be prepared or compiled and the time period during which records must be preserved (See section 504(b) (1) and (d)). The FMCSA will use this data to administer its safety programs by establishing a database of entities that are subject to its regulations.

This database necessitates that these entities notify the FMCSA of their existence. For example, under 49 CFR 390.19(a), FMCSA requires all motor carriers beginning operations to file a Form MCS-150 entitled, Motor Carrier Identification Report. This report is filed by all motor carriers conducting operations in interstate or international commerce before beginning operations. It asks the respondent to provide the name of the business entity that owns and controls the motor carrier operation, address and telephone of principal place of business, assigned identification number(s), type of operation, types of cargo usually transported, number of vehicles owned, term leased and trip leased, driver information, and certification statement signed by an individual authorized to sign documents on behalf of the business entity.

The Department of Transportation and Related Agencies Appropriations Act for fiscal year 2002, Public Law 107-87, 115 Stat. 833, dated December 18, 2001 (see Attachment B), directed the agency to issue an interim final rule (IFR) to ensure that new entrant motor carriers are knowledgeable about the Federal Motor Carrier Safety Regulations (FMCSRs) and standards. On May 13, 2002, the agency published an IFR entitled, “New Entrant Safety Assurance Process” (67 FR 31978).

On August, 23, 2013, the agency published a Final Rule titled, “Unified Registration System,” (URS) which requires interstate motor carriers, freight forwarders, brokers, intermodal equipment providers, hazardous materials safety permit applicants, and cargo tank facilities to file for registration via a new online Form MCSA-1. The Form MCSA-1 will replace the existing Forms MCS-150B and MCS-150C in this ICR. However, the Form MCS-150 will be retained for the small number of Mexico-domiciled carriers that seek authority to operate beyond the United States municipalities on the

United States-Mexico border and their commercial zones because they are not included within the scope of the URS Final Rule. This revised ICR captures the burden on the Mexico-domiciled carriers that will continue to use Form MCS-150 after implementation of the URS Final Rule effective October, 23 2015.

PUBLIC COMMENTS INVITED: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways

for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the information collected. The Agency will summarize or include your comments in the request for OMB's clearance of this ICR.
