**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This is a request to renew or extend the expiration date of this currently approved information collection.

In accordance with the Executive Order 12862, the National Institute of Standards and Technology (NIST), a non-regulatory agency of the Department of Commerce, proposes to conduct a number of data collection efforts – both quantitative and qualitative. The data collections will be designed to determine requirements and evaluate the usability and utility of NIST research for measurement and standardization work. These data collections efforts may include, but may not be limited to electronic methodologies, empirical studies, video and audio collections, interviews, and questionnaires. For example, data collection efforts may include the password generation study and the user perceptions of online privacy and security study. NIST will limit its inquiries to data collections that solicit strictly voluntary opinions or responses and will not collect information that is required or regulated. The results of the data collected will be used to guide NIST research. Steps will be taken to ensure anonymity of respondents in each activity covered under this request.

## **II. Method of Collection**

NIST will collect this information by electronic means when possible, as well as by mail, fax, telephone and person-to-person interviews.
