**SUPPLEMENTARY INFORMATION:**

**I. Abstract.** The Kodiak National Wildlife Refuge has partnered with Utah State University to conduct a public survey of visitors to the Kodiak National Wildlife Refuge who participate in bear viewing at structured and unstructured sites. Questions will address logistical aspects of bear viewing (including the amount of money visitors are willing to spend on viewing and amenities), satisfaction with current experiences (based on number of bears, density of other visitors, length of stay, and education received), and reported changes to attitudes and behavior related to bear conservation based on visitors' experiences on the refuge. Survey results are crucial to understanding public demands for and expectations of bear viewing, so that the refuge can better facilitate bear viewing opportunities and better convey educational messages on bear management.
