**A. Purpose**

Per Federal Acquisition Regulation Part 48, value engineering is the technique by which contractors (1) voluntarily suggest methods for performing more economically and share in any resulting savings or (2) are required to establish a program to identify and submit to the Government methods for performing more economically. These recommendations are submitted to the Government as value engineering change proposals (VECP's) and they must include specific information. This information is needed to enable the Government to evaluate the VECP and, if accepted, to arrange for an equitable sharing plan.
