BACKGROUND: The Advisory Committee was established by Title I of the James Zadroga 9/11 Health and Compensation Act of 2010, Pub. L. 111-347 (Jan. 2, 2011), amended by Pub. L. 114-113 (Dec. 18, 2015), adding Title XXXIII to the Public Health Service Act (42 U.S.C. §§ 300mm to 300mm-61).

PURPOSE: The purpose of the Advisory Committee is to review scientific and medical evidence and to make recommendations to the World Trade Center (WTC) Program Administrator regarding additional WTC Health Program eligibility criteria, potential additions to the list of covered WTC-related health conditions, and research regarding certain health conditions related to the September 11, 2001 terrorist attacks. Title XXXIII of the Public Health Service Act (PHS Act) established the WTC Health Program within the Department of Health and Human Services (HHS). The WTC Health Program provides medical monitoring and treatment benefits to eligible firefighters and related personnel, law enforcement officers, and rescue, recovery, and cleanup workers who responded to the September 11, 2001, terrorist attacks in New York City, at the Pentagon, and in Shanksville, Pennsylvania (responders), and to eligible persons who were present in the dust or dust cloud on September 11, 2001 or who worked, resided, or attended school, childcare, or adult daycare in the New York City disaster area (survivors). Certain specific activities of

the WTC Program Administrator are reserved to the Secretary, HHS, to delegate at her discretion; other WTC Program Administrator duties not explicitly reserved to the Secretary, HHS, are assigned to the Director, NIOSH. The administration of the Advisory Committee is left to the Director of NIOSH in his role as WTC Program Administrator. CDC and NIOSH provide funding, staffing, and administrative support services for the Advisory Committee. The charter was reissued on May 12, 2015, and will expire on May 12, 2017.

MATTERS FOR DISCUSSION: The agenda for the Advisory Committee meeting includes a discussion of the Chair's report on establishing control groups for WTC health research, a presentation of a report by the Children's Research Workgroup report and developing recommendations on children's research.

The agenda is subject to change as priorities dictate.
