**BILLING CODE 6717-01-P**

**DEPARTMENT OF ENERGY**  
Federal Energy Regulatory Commission  
[Docket No. CP15-504-000]

Dominion Carolina Gas Transmission, L.L.C.;

**Notice Of Availability Of The  
Environmental Assessment For The Proposed  
Columbia To Eastover Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this environmental assessment for the Columbia to Eastover Project (Project) proposed by Dominion Carolina Gas Transmission, L.L.C. in the above-referenced docket. Dominion Carolina Gas requests authorization to construct, install, own, operate and maintain certain facilities located in Calhoun, Richland, and Lexington Counties, South Carolina. This Project would enable Dominion Carolina Gas to provide 18 million cubic feet per day of firm transportation service to the existing International Paper Plant in Eastover, South Carolina.

Specifically, the proposed Project includes the following facilities:

- 28 miles of new 8-inch-diameter pipeline;
- a pig launcher;
- a joint new pig receiver and meter and regulator station;
- cathodic protection; and
- eight mainline valves along the pipeline.

The environmental assessment assesses the potential environmental effects of the construction and operation of the Project in accordance with the National Environmental Policy Act. The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The environmental assessment has been placed in the public files of the FERC and is available for public viewing on the FERC's website at [www.ferc.gov](http://www.ferc.gov) using the eLibrary link. A limited number of copies of the environmental assessment are available for distribution and public inspection at:

Federal Energy Regulatory Commission  
Public Conference Room  
888 First Street NE, Room 2A  
Washington, DC 20426
