*Abstract:* Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR Part 60, Subpart A, as well as for the specific requirements at 40 CFR Part 60, Subpart Cb. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

*Form Numbers:* None.

*Respondents/affected entities:* Large municipal waste combustors.

*Respondent's obligation to respond:* Mandatory (40 CFR Part 60, Subpart Cb).

*Estimated number of respondents:* 81 (total).

*Frequency of response:* Initially, occasionally, semiannually and annually.

*Total estimated burden:* 397,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$59,400,000 (per year), which includes \$1,560,000 in annualized capital/startup and/or operation & maintenance costs.

*Changes in the Estimates:* There is a small adjustment increase in the respondent labor hours and costs and the total O&M costs as currently identified in the OMB Inventory of Approved Burdens. The increase in labor hours and cost is due to a change in assumption. In this ICR, we assume all existing sources will take some time each year to re-familiarize themselves with the regulatory requirements. The increase in total O&M cost is due to rounding of all calculated values to three significant figures.
