**I. ABSTRACT:** The Organic Act of 1916 (NPS Organic Act) (54 U.S.C. §100101) authorizes the Secretary of the Interior to develop regulations for national park units under the Department's jurisdiction. The Mining in the Parks Act (54 U.S.C. §100731 et seq.) directs the Secretary of the Interior to regulate all operations in park units in connection with the exercise of mineral rights on patented and unpatented mining claims.

The regulations at 36 CFR Part 9, Subparts A and B, ensure that mining and non-Federal oil and gas activities on units of the National Park System are conducted in a manner consistent with preserving each unit for the benefit of present and future generations. The information required by Subpart A identifies the claim, claimant, and operator (the claimant and operator are often the same) and details how the operator intends to access and develop the minerals associated with the claim. It also identifies the steps the operator intends to take to minimize any adverse impacts of the mining operations on park resource and values. No information, except claim ownership information, is submitted unless the claimant wishes to conduct mining operations. The information required by Subpart B identifies the owner and operator (the owner and operator are often the same) and details how the operator intends to access and develop the oil and gas rights. It also identifies the steps the operator intends to take to minimize any adverse impacts on park resources and values. No information is submitted unless the owner wishes to conduct oil and gas operations.
