SUPPLEMENTARY INFORMATION:

On August 26, 2014, FOE filed a Petition to Intervene and Request for Hearing (Petition) concerning DCP (ADAMS Package Accession No. ML15226A316). Within this Petition, FOE asserted concerns about DCP's operational safety and ability to safely shut down. The Commission referred those concerns to the NRC's EDO¹ for consideration under the regulations in section 2.206 of title 10 of the *Code of Federal Regulations* (10 CFR), "Requests for Action Under

¹ Memorandum and Order CLI-15-14, dated May 21, 2015 (ADAMS Accession No. ML15141A084).

this Subpart.” The EDO then referred these concerns to the NRC’s Office of Nuclear Reactor Regulation for consideration under 10 CFR 2.206.

On two occasions, the NRC offered the petitioner opportunities to address the Petition Review Board (PRB), which was established to review the concerns referred to the EDO from the Commission, as discussed above. In response, on September 30, 2015, and February 8, 2016, FOE’s attorney provided written submissions on behalf of FOE to the PRB in lieu of FOE addressing the PRB in person or via telephone (ADAMS Package Accession No. ML15226A316).

Based on the information described above, the NRC has decided to accept the petitioner’s concerns referred to the EDO by the Commission for consideration under the 10 CFR 2.206 process because these concerns meet the criteria provided in Management Directive 8.11, “Review Process for 10 CFR 2.206 Petitions.”

Dated at Rockville, Maryland, this 12th day of April 2016.

For the Nuclear Regulatory Commission.

William M. Dean, Director,
Office of Nuclear Reactor Regulation.
