In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR)(18 CFR Part 380 [FERC Order No. 486, 52 FR 47897]), the Office of Energy Projects has reviewed the application for license for the Bear River Narrows Hydroelectric Project (FERC No. 12486) and prepared a final environmental impact statement (EIS) for the project.

The proposed project would be located on the Bear River, near the city of Preston, in Franklin County, Idaho. The project would occupy 243 acres of federal land managed by the Bureau of Land Management.

The final EIS contains staff's evaluation of the applicant's proposal and the alternatives for licensing the Bear River Narrows Hydroelectric Project. The final EIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicant, and Commission staff.

A copy of the final EIS is available for review at the Commission or may be viewed on the Commission's website at <http://www.ferc.gov>, using the "e-Library" link.
