### **Petition for Waiver of Compliance**

### **[Docket Number FRA-2016-0046]**

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated April 28, 2016, Union Railroad (UR) petitioned the Federal Railroad Administration (FRA) for renewal of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 229–Railroad Locomotive Safety Standards. This regulatory relief was initially granted by FRA in 1980 and is due to expire in 2017 under the “sunset clause” added to 49 CFR section 229.19–Prior waivers, in 2012. This relief was formerly handled under Docket Number LI-80-24; however FRA has updated the docket numbering system and assigned this petition Docket Number FRA-2016-0046.

The waiver in Docket Number LI-80-24 granted UR relief from the requirement of 49 CFR 229.123–*Pilots, snowplows, end plates*, that locomotives be equipped with a pilot, snowplow, or end plate extending across both rails for 121 locomotives, 32 of which remain in service. These locomotives are not equipped with a pilot, snowplow, or end plate but have hose boxes or brackets above the rails with open space between. UR states that these locomotives operate over yard and mainline track, within and between three steel mills. The total track length of UR is 20 miles, with three public grade crossings (two with gates and flashers, one with flashers only) and trains are limited to 20

mph. UR reports that there have been no known safety-related incidents or operating difficulties associated with this waiver.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590.
