Agenda: The Assembly will consider two proposed recommendations as described below:

Consumer Complaint Databases. This proposed recommendation encourages agencies that make consumer complaints publicly available through online databases or downloadable data sets to adopt and publish written policies governing the dissemination of such information to the public. These policies should inform the public of the source and limitations of the information and permit entities publicly identified to respond or request corrections or retractions.

Aggregation of Similar Claims in Agency Adjudication. This proposed recommendation provides guidance to agencies on the use of aggregation techniques to resolve similar claims in adjudications. It sets forth procedures for determining whether aggregation is appropriate. It also considers what kinds of aggregation techniques should be used in certain cases and offers

guidance on how to structure the aggregation proceedings to promote both efficiency and fairness.
