SUPPLEMENTARY INFORMATION:

I. Background.

The Utah Reclamation Mitigation and Conservation Commission is an independent Federal agency established by the Central Utah Project Completion Act of

1992. The Act set terms and conditions for completing the Central Utah Project, which diverts stores and delivers large quantities of water from numerous Utah rivers to meet the needs of central Utah's citizens. The Commission is responsible for planning, funding, and implementing projects that benefit fish, wildlife, and related recreation resources in order to offset impacts caused by the Central Utah Project, and other Federal water reclamation projects in Utah. The Commission meets publicly to consider and act on agreements to carry out mitigation projects with various partners, including State and Federal natural resource agencies and non-profit groups. The Commission has relocated its place of business to 230 South 500 East, Suite 230 in Salt Lake City, Utah 84102-2045. This rule updates the agency location where it is referenced in 43 CFR 10000.7(a).

II. Procedural Requirements

A. Determination To Issue Final Rule Effective in Less Than 30 Days: The Commission has determined that the public notice and comment provisions of the Administrative Procedure Act, 5 U.S.C. 553(b), do not apply to this rulemaking. Because updating the agency's address is a matter of “agency organization, procedure, and practice,” it is exempt from notice and comment rulemaking under 5 U.S.C. 553(b)(3)(A). The Commission has also determined that there is good cause to waive the requirement of publication 30 days in advance of the rule's effective date under 5 U.S.C. 553(d)(3). The public benefits from having the regulations reflect the agency's correct physical address so it has accurate information on how to contact the agency. The use of the incorrect address could result in correspondence not reaching the agency.

B. Review Under Procedural Statutes and Executive Orders: The Commission has determined that making changes to its regulations to reflect its correct address does not trigger any requirements under the procedural statutes and Executive Orders that govern rulemaking procedures.
