### **Consultation**

A detailed assessment of the human remains was made by Stanford University Heritage Services professional staff in consultation with representatives of the Greenville Rancheria (previously listed as the Greenville Rancheria of Maidu Indians of California); the Susanville Indian Rancheria, California; the Maidu Summit Consortium (a non-federally recognized Indian group); and with Ms. Beverly Ogle, an individual.

### **History and description of the remains**

In October 1895, human remains representing, at minimum, one individual were removed from a historic cemetery in Longville, Plumas County, CA. Excavations were carried out by Stanford University alumna, Mabel Louise Miller in 1895. She is known to have excavated a Native American cemetery abandoned around 1853 and located at a rancheria near Longville, in Plumas County. Miller gave the human remains to the Leland Stanford Junior Museum in October 1916 and subsequently, the museum transferred them to the Stanford University Department of Anthropology. Currently, the human remains are housed in the Stanford University Archaeology Collections. The cemetery was located with the assistance of Ms. Beverly Ogle and was used exclusively by Ms. Ogle's family. It lay adjacent to the home of Ms. Ogle's great-grandfather, Fred Thomas, in the former town site of Longville. Ms. Ogle's family used this small cemetery in the middle to late 1800s.

### **Determinations made by the Stanford University Heritage Services office**

Officials of the Stanford University Heritage Services office have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 43 CFR 10.10(b)(1) and 43 CFR 10.14(b), Beverly Ogle is a lineal descendant of the human remains removed from the specific burial site.

### **Additional Requestors and Disposition**
