**SUPPLEMENTARY INFORMATION:**

**I. What Information is EPA Particularly Interested in?**

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

## **II. What Information Collection Activity or ICR Does this Action Apply to?**

*Title:* Notification of Substantial Risk of Injury to Health and the Environment under TSCA Sec. 8(e).

*ICR number:* EPA ICR No. 0794.16.

*OMB control number:* OMB Control No. 2070-0046.

*ICR status:* This ICR is currently scheduled to expire on February 28, 2017. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal

Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* Section 8(e) of the Toxic Substances Control Act (TSCA) requires that any person who manufactures, imports, processes or distributes in commerce a chemical substance or mixture and which obtains information that reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment must immediately inform EPA of such information. EPA routinely disseminates TSCA section 8(e) data it receives to other federal agencies to provide information about newly discovered chemical hazards and risks. This information collection refers to the reporting requirement described above.

Responses to the collection of information are mandatory (see 15 USC 2607(e)). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to range from 0.5 hours to 50 hours per response, depending upon the nature of the response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

*Respondents/Affected Entities:* Entities potentially affected by this ICR are companies that manufacture, process, import or distribute in commerce a chemical substance or mixture, and that obtain information that reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment.

*Estimated total number of potential respondents:* 65.

*Frequency of response:* On occasion.

*Estimated total average number of responses for each respondent:* 8.8.

*Estimated total annual burden hours:* 21,412 hours.

*Estimated total annual costs:* \$ 1,650,068. This includes an estimated burden cost of \$ 1,650,068 and an estimated cost of \$ 0 for capital investment or maintenance and operational costs.

### **III. Are There Changes in the Estimates from the Last Approval?**

There is an increase of 2,894 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects EPA's revised estimates of the number of TSCA sec. 8(e) initial submissions. This change is an adjustment.

### **IV. What is the Next Step in the Process for this ICR?**

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the

approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT.**

**Authority:** 44 U.S.C. 3501 *et seq.*

Dated: June 22, 2016.

*Assistant Administrator, Office of Chemical Safety and Pollution Prevention.*
