Replies are provided during scheduled business hours.

**SUPPLEMENTAL INFORMATION:** This Coal Lease Sale is being held in response to a lease by application submitted by Ark Land Company (Ark). That application was assigned by Ark to Canyon Fuel Company, LLC, a subsidiary of Bowie Resource Partners, LLC. The assignment was effective September 1, 2013 and was approved by the BLM on July 1, 2014. The coal resources to be offered consist of all recoverable reserves available in the lands identified below. These lands are located in Sanpete and Sevier Counties, Utah, approximately 10.5 miles west of Emery, Utah, under surface lands managed by the Manti-La Sal and Fishlake National Forests. Those lands are described as follows:

The area described contains 6,175.39 acres.

The coal in the Greens Hollow Tract has one minable coal bed, which is designated as either the Upper Hiawatha or the Lower Hiawatha seam. These seams are approximately 11 feet in thickness. The coal beds contain approximately 55.7 million

tons of recoverable high-volatile C bituminous coal. The “as received basis” coal quality in the Upper Hiawatha coal bed is: 11,565 Btu/lb., 7.46 percent moisture, 9.81 percent ash, 36.55 percent volatile matter, 46.1 percent fixed carbon, and 0.55 percent sulfur. The “as received basis” coal quality in the Lower Hiawatha coal bed is: 11,538 Btu/lb., 7.21 percent moisture, 9.69 percent ash, 38.88 percent volatile matter, 43.85 percent fixed carbon, and 1.26 percent sulfur.

Pursuant to the applicable regulations, the Greens Hollow Tract may be leased to the qualified bidder (as established at 43 CFR subpart 3472) that submits the highest cash bonus bid that is equal to or exceeds the Fair Market Value (FMV) for the tract as determined by the authorized officer after the sale. The BLM has prepared its fair market value estimate for the tract, which estimate has been reviewed by the Department of Interior’s Office of Valuation Services.

The Department of the Interior has established a general minimum bid of \$100 per acre or fraction thereof for the tract. The minimum bid is not intended to represent the FMV, and a tract will not be sold unless the bid received meets or exceeds BLM’s FMV estimate. The lease that may be issued as a result of this offering will provide for payment of an annual rental of \$3 per acre or fraction thereof, and a royalty of 8 percent of the value of the coal produced by underground mining methods. The value of the coal for royalty purposes will be determined in accordance with 30 CFR Part 1206, subpart F. This coal lease application (UTU-84102) is not subject to case-by-case processing fees pursuant to 43 CFR 3473.2(f). However, the successful bidder must pay to the BLM the cost BLM incurs regarding the publishing of this sale notice. If there is no successful bidder, the applicant will be responsible for all publishing costs.

The required detailed statement under 43 CFR 3422.2 for the offered tract, including bidding instructions and sale procedures under 43 CFR 3422.3-2, and the terms and conditions of the proposed coal lease, is available from BLM, Public Room (Suite 500), Utah State Office, 440 West 200 South, 5th Floor, Salt Lake City, Utah 84101-1345. All case file documents and written comments submitted by the public on FMV, except those portions identified as proprietary by the author and meeting exemptions stated in the Freedom of Information Act, are available for public inspection during normal business hours in the BLM Public Room (Suite 500).

The actions announced by this notice are consistent with the Department of the Interior Secretarial Order 3338, which allows for a lease sale to be held and lease to be issued for a pending applications where the environmental impact statement under the National Environmental Policy Act had been completed and a Record of Decision had been issued by the BLM or applicable surface management agency prior to the issuance of the Order. Here the BLM held a public hearing and requested comments on the Environmental Impact Statement, Maximum Economic Recovery, and the FMV of the Greens Hollow Tract on May 6, 2009. The Governor of the State of Utah recommended proceeding with this lease sale on May 26, 2011.

The United States Forest Service prepared a Final Supplemental Environmental Impact Statement, and signed a Record of Decision and a consent to lease on October 5, 2015, prior to the issuance of Order 3338. The BLM signed a Record of Decision to hold the lease sale on August 12, 2016.

AUTHORITY: 43 CFR 3420.1
