Abstract: The U.S. Department of Education (Department) requests OMB clearance for data collection activities associated with the Study of Title I Schoolwide and Targeted Assistance Programs. The purpose of this study is to provide a detailed analysis of the types of strategies and activities implemented in Title I schoolwide program(SWP) and targeted assistance program (TAP) schools, how different configurations of resources are used to support these strategies and how local officials make decisions about the use of these varied resources. To this end the study team will conduct site visits to a set of 40 case study schools that will involve in-person and telephone interviews with Title I district officials and school staff involved in Title I administration. In addition, the study team will collect and review relevant extant data and administer surveys to a nationally representative sample of principals and school district administrators. Both the case study and survey samples include Title I SWP and TAP schools. Clearance is requested for the case study and survey components of the study, including its purpose, sampling strategy, data collection procedures, and data analysis approach.
