The Plant Variety Protection Act (PVPA) (7 U.S.C. 2321 et seq.) provides legal protection in the form of intellectual property rights to developers of new varieties of plants, which are reproduced sexually by seed or are tuber-propagated. A certificate of Plant Variety Protection (PVP) is awarded to an owner of a crop variety after an examination shows that it is new, distinct from other varieties, genetically uniform and stable through successive generations. The term of protection is 20 years for most crops and 25 years for trees, shrubs, and vines. The PVPA also provides for a statutory Board (7 U.S.C. 2327). The PVPA Board is composed of 14 individuals who are experts in various areas of development and represent the private or seed industry sector, academia and government. The duties of the Board are to: (1) advise the Secretary concerning the adoption of rules and regulations to facilitate the proper administration of the FACA; (2) provide advisory counsel to the Secretary on appeals concerning decisions on applications by the PVP Office and on requests for emergency public-interest compulsory licenses; and (3) advise the Secretary on any other matters under the Regulations and Rules of Practice and on all questions under Section 44 of the FACA, “Public Interest in Wide Usage” (7 U.S.C. 2404).

The purpose of the meeting will be to discuss the PVPO 2016 achievements, the electronic application system, report of the molecular techniques subcommittee, PVP cooperation with other countries, and PVP’s 2017 business plan.

Agenda Items: The agenda will include, welcome and introductions, discussions on program activities that encourage the development of new plant varieties and also address appeals to the Secretary. There will be presentations on 2016 accomplishments, the electronic PVP application system, PVP outreach activities, the use of molecular markers

for PVP applications, PVP cooperation with other countries, and the 2017 business plan.
