Title: ADP & Services Conditions for FFP for ACF

OMB No.: 0970-0417

Description: State child support agencies are required to establish and operate a federally approved statewide automated data processing and information retrieval system to assist in child support enforcement. States are required to submit an initial advance automated data processing planning document (APD) containing information to assist the Secretary of the Department of Health and Human Services in determining if the state computerized support enforcement system meets federal requirements and providing federal approval. States are also required to submit annually an updated APD for oversight purposes. Based on assessment of the information provided in the initial or updated APDs, states that do not meet federal requirement approval will need to complete an independent verification and validation.

The Advance Planning Document (APD) process, established in the rules at 45 CFR Part 95, Subpart F, is the procedure by which States request and obtain approval for Federal financial participation in their cost of acquiring Automatic Data Processing (ADP) equipment and

services. State agencies that submit APD requests provide the Department of Health and Human Services (HHS) with the following information necessary to determine the States' needs to acquire the requested ADP equipment and/or services:
